WHEREAS, pursuant to Article XXVI of the Charter, the City now proposes to issue its Electric Revenue Bonds, 2024 Second Series (the “Bonds”) pursuant to an Indenture of Trust, dated as of February 1, 2000 (the “Original Indenture”), by and between the City and The Bank of New York Mellon Trust Company, N.A., successor to The Bank of New York Trust Company, N.A., as trustee (the “Trustee”), as supplemented and amended, including as supplemented by an Tenth Supplement to Indenture of Trust, dated as of August 1, 2024 (the “Tenth Supplement”), by and between the City and the Trustee, to provide moneys for (i) paying all or a portion of the costs (a) to further develop and to construct the Grayson Repowering Project, consisting of natural gas-powered electric generating facilities that will replace certain portions of the City’s existing Grayson Power Plant, with a total capacity of approximately 56 megawatts (three reciprocating internal combustion engines rated at 18.6 megawatts each) and a 75 megawatt/300 megawatt-hour battery energy storage system, (b) to acquire and construct the Scholl Canyon Landfill Biogas Renewable Generation Project, consisting of the installation of four gas engine generators, along with a landfill gas cleanup system, and/or (c) to acquire and construct certain improvements to the City’s electric public utility, such as 4 to 12kv feeder upgrades, solar generation facilities installed on city properties, substation improvements, meter upgrades, vault replacement and transmission and distribution improvements and pole replacements, in each case including necessary and appurtenant facilities and equipment relating thereto, all to be owned by the City (collectively, the “Projects”), (ii) making a deposit to a debt service reserve fund, and (iii) paying the costs of issuance of the Bonds; and
