Summary Minutes of the Speakers Comments

1. Yvan Poissant – Resident – 1320 Ruberta Avenue

Sites: GLENDALE 237 front of 1544 W. Kenneth Rd. - **Against**

- Health concerns and radiation impacts to the human health.
- Some European countries banned or halted deployment of 5G wireless technology due to health concerns.
- The resident is claiming that multiple health issues were caused to the resident due to exposure.
- Various research and medical experts found the 5G network radio frequencies contains toxins.
- It will affect the property's' value.
- Deny the application until proper independent research is conducted.

2. Patrick Masihi – resident – 1545 W. Kenneth Rd.

Sites: GLENDALE 237 front of 1544 W. Kenneth Rd.- **Against**

- Not enough research on 5G network conducted to show that it is safe.
- Past 10-15 years no research hasn't done on radiation exposure for 5G.
- National Institute of Health has criticized not having enough 5G research.
- Move to open space nearby which is away from residential neighborhoods.
- The property value decreases due to proposed 5G site.

3. Adrine Hamamah – resident – 1725 Grandview Avenue

Site: GLENDALE 239 front of 1725 Grandview Ave. – **Against positioning of the pole**

- There are 3 poles being put within a mile radius of my property is that necessary?
- I am in opposition for positioning of the pole since they are moving 5 ft. north which is going to be in the middle of my whole property.
- Visually it will be unpleasant and will result on decrease my property value.
- Move to either side of the driveway no objection.
