1. Pranke, MaryAnn 7:35 PM  
It is commendable how you are able to stretch the dollars to cover so many services. Overall these grants provide so little funding for such daunting tasks!

Exhibit 4

Could you please provide more information about the building on Pioneer Dr. you just mentioned.

3. Pranke, MaryAnn7:39 PM

How do you determine the allocation amounts to the different programs and services. For example, how does one receive \$65K and another receive \$10K?

Yes, thank you!

4. What kinds of projects does grant be funding?

4. I have a question/comment in regard to the ESG program. Would it be possible to streamline some of these funds into the SSP program? SSP case managers could better assist clients who may be struggling to pay their monthly rent.

5. It would also be great to hold community meetings right after lunch at the ARC, this would allow more participation from seniors living in the community.

After encouraging for more comments and reminding the public to share information into the chat box, Ms. Kavarian thanked everyone for attending the meeting and officially closed the Public Hearing.

The Meeting was adjourned at 7:44 p.m.
