Dear City Council members,

For some time I have been concerned about turning safely onto Adams from Scofield. It is often very difficult to see beyond the cars that are parked on either side of Adams, and several times I have been stunned by an oncoming car that I did not see as I started to enter Adams. A stop sign would serve to slow speeds and make entry onto Adams much safer.

Thank you for considering our concerns.

Greetings City Council members and City Clerk,

I agree with the AHNA that speeding motorists on Adams Street are endangering the residents of Adams Hill. However, I don't think that the best solution is a stop sign that can be ignored by speeders.

I would prefer a speed hump, similar to what we have on Palmer in front of the park. There are more speed humps on Verdugo a mile away on the other side of the hill (in LA). On Verdugo, the humps are staggered between north and southbound lanes so that emergency vehicles can go around them.

I know the fire department opposes speed humps due to the impact on their response times. However, this is a situation in which there are competing safety issues, and I would favor the preventative safety measure (speed hump) instead of the reactive safety measure (stop signs have shorter response times, but cause accidents themselves).

I think it should be the role of the City Council to resolve conflicts between departments and the public. We all know that speed humps are the most effective approach to controlling speeders. I ask that City Council tells the fire department that they lost this argument, and have a speed hump

installed.

Thank you for your attention to this matter,

Scott Peer

Subject: City Council Meeting to Address Scofield All-Way Stop

Notice of City Council Meeting to Address the Proposed All Way Stop at Adams St. and Scofield Dr.

**Tuesday Nov 5th at 6pm
Glendale City Council Chambers
613 E Broadway 2nd floor Glendale CA 91206**

The Glendale City Council will be addressing the proposed all-way stop at Scofield Drive and Adams Street at their Nov 5th meeting this Tuesday.

The City of Glendale Public Works Department recommends the intersection at Scofield Drive and South Adams Street, as it meets all the criteria for their Traffic Calming Program.

The intersections at Yale Drive and Cornell Drive were also studied and do not meet the criteria at this time.

The installation of a all-way stop will discourage the massive amount of vehicles speeding up and down South Adams Street. The installation of crosswalks will also add much needed safety measures for pedestrians who use the adjacent Mini Park and businesses.

The City Council will be voting to pass one of three options:

- * Motion setting the matter for a public hearing
- * Motion ordering the Transportation and Parking Commission to rehear the matter
- * Motion dismissing the appeal forthwith

The Adams Hill Neighborhood Association is advocating the implementation of this Traffic Calming Measure on South Adams Street.

We would like to encourage our membership and neighborhood residents to make the Mayor and City Council aware of your support.

Here's how:

Email

Mayor Elen Asatryan - eeasatryan@glendaleca.gov
City Council Daniel Brotman - dbrotman@glendaleca.gov
City Council Ardy Kassakhian - akassakhian@glendaleca.gov,
City Council Vartan Gharpetian - vggharpetian@glendaleca.gov,
City Council Ara Najarian - anajarian@glendaleca.gov,
City Clerk - Suzie Abajian Sabajian@glendaleca.gov

For public comments and questions during the meeting, call (818) 937-8100. Public comments on a specific agenda item will be taken when that agenda item is discussed. Public comments are limited to 3 minutes. If you have any question about matters on the agenda, or requests for assistance, please contact the City Clerk at (818) 548-2090 during regular business hours.

Physical attendance is welcome and encouraged.

Dear Mayor Elen Asatryan and City Council Members,

I am writing to express my strong support for the proposed All Way Stop at South Adams Street and Scofield. As a resident of Adams Hill, I believe that implementing this measure will bring significant safety improvements to our community, benefiting both residents and visitors

alike.

South Adams Street has long been a concern for many of us due to the high traffic volumes and the speeds at which vehicles often travel. This creates an unsafe environment for pedestrians, cyclists, and even other drivers. I believe that by introducing effective traffic calming solutions, the city can address these concerns, reduce speeding, and make the street safer for everyone, especially children and elderly residents who frequently use this area.

Furthermore, this measure aligns with Glendale's commitment to creating a safer, more walkable, and more family-friendly community. Traffic calming measures have proven effective in other cities and neighborhoods, not only improving safety but also enhancing the quality of life for residents.

I appreciate the City Council's consideration of this initiative and urge you to move forward with the implementation of this much-needed measure on South Adams Street. Thank you for your attention to this important issue and for your commitment to making Glendale a safer place for all.

Sincerely,
Dagmarette Yen
949-280-1517

CAUTION: This email was delivered from the Internet. Do not click links, open attachments, or reply if you are unsure as to the sender.

I am writing as a resident of Adams Hill and as a member of the Adams Hill Neighborhood Council urging the Glendale City Ciuncil to move forward with building the all-way proposed stop at Schofield Deive and Adams Street. The safety of our residents has been pushed aside for far too long and after various solutions have been tried over the past few years, action needs to be taken that is in the interest of our residents, especially the children who frequent Adams drive on their way to the mini park.

Our community has been asking for a solution to the speeding cars and drivers who ignore other safety measures that have been tried. I myself have called the Teanspirtation and Parking commission to advocate for speed bumps as a means of slowing drivers down but my requested

nowhere.

Please do what is right for the residents and move this motion to a public hearing so you can hear for yourself how important the safety concerns on Adams Drive are.

Thank you for your time,

Astrid Carrillo
