Re: Direction on the North Brand Boulevard Complete Streets Demonstration Project

Honorable Mayor Asatryan and Councilmembers,

I am writing to implore you to cancel the North Brand Boulevard Complete Streets Demonstration Project and remove the trial traffic modifications as soon as practicable. While I understand that the reconfiguration is intended to reduce traffic hazards associated with pedestrians and bicycles, I strongly believe that this project demonstrates increased safety risk, and is likely dangerous.

I have lived in Northwest Glendale for over 30 years, and have seen enormous growth of traffic volume as more residents own and drive personal vehicles. Demographic changes contributing to this growth include adult children living at home, multi-generational homes, ADUs, and the affluence to afford a car for each driving-age resident.

This increase in traffic already strains our major arterial streets (Western, Sonora, Grandview, Pacific,

Central, Brand). All these streets are already 1-lane in each direction above Glenoaks. Reconfiguring Brand to 1-lane cause congestion at the merge and pushes traffic to smaller streets nearby.

The demonstration project has also shown dangerous traffic congestion at merge points and right-hand turns. Without the protected bike lane, the right-hand traffic lane was a buffer that allowed easy and safe parking access. Now, cars backing from parking slots must block the only traffic lane – risking collision and frustration.

Right-hand turns from Brand onto cross streets are too tight and often halt the single-file traffic. Contributing to this hazardous situation are blind spots where drivers cannot adequately see bicycle traffic in the dedicated bike lane – and bicycle riders often do not stop.

There is another traffic problem in this area, although maybe not directly related to the demonstration project. Northbound traffic crossing Glenoaks must merge within a short distance at a point where there is a very busy business driveway, a congested left turn option, and a signalled crosswalk. The space is not large enough to accommodate all the traffic that pulses through the intersection during heavy traffic periods. When 2 lanes were available, no merge was needed and traffic flowed much more easily and safely.

Here are my recommendations –

Remove all reconfigurations associated with this demonstration project. Add bicycle path markings to Louise St., much like those added to Cumberland Rd several years ago. If Brand is restored to 2-lane traffic, Louise should be a safer cycling route.

The signalled crosswalk near the corner of Incarnation Church should be interlocked with the traffic controls at Glenoaks and Brand so that the crosswalk will WAIT if a heavy pulse of traffic is about to flood against the crosswalk. This would increase safety and avoid traffic backups and frustration in the large intersection.

I do not support any of the proposed adjustments to the demonstration project. I have cycling friends who have almost died due to head-to-head bicycle collisions (their handlebars barely touched!). The proposed 2-way bike path is dangerous.

Dear Mayor Asatryan and Councilmembers Brotman, Gharpetian, Kassakhian, Najarian:

The configuration on this street is dangerous to drivers trying to exit parking lots.

We urge you to drive into the parking lot at 1150 N. Brand, where our dentist Dr. Ronald McKay has his office. Then come back out to make a right turn on Brand. You will hit a major blind spot as you attempt to make that turn. If cars are coming, you will have to slowly edge out because you cannot see northbound traffic and just when you think it is all clear, a car suddenly appears.

All streets are crowned for drainage but because of the new bikeway, the parked cars are pushed back farther towards the street's crown and, therefore, are higher, possibly by as much as a foot, blocking the view of oncoming traffic. Not only can we not see them but they cannot see us in our Prius.

And for those drivers who need to make a left turn, it is even worse.

This is our main concern. It is a safety issue. Before the project, Brand between

Glenoaks and Mountain always felt safe to us.

Also, this former lovely street is now loud and garish due to the colors used on the street and the planter boxes. It used to have dignity.

Sincerely,
Carol and Ron Brusha

Subject: Terminate Bike Lanes N. Brand

CAUTION: This email was delivered from the Internet. Do not click links, open attachments, or reply if you are unsure as to the sender.

Dear Ms Mayor and Councilmembers,

N. Brand is the wrong location for the mess that was created by eliminating traffic lanes on that stretch of N. Brand Blvd.

The short 4 blocks is the "Road to Nowhere" for the few bicyclists ever seen using the bike lanes.

Narrowing parking spaces is a huge fail.

Having to back out of those parking spaces into the one and only traffic lane in each direction is dangerous and time-consuming. Not a good mix with the driving records in this city!

Reduced emergency response time for the Glendale Fire Dept. driving their trucks out into that single traffic lane is NOT a good plan.

Navigating the right and left turns from the side streets with limited visibility is not safe!

I, along with many others, avoid that whole area and take other neighborhood streets to go where we need to go. It used to be a pleasant drive, visually and spatially, without traffic and confusing and

ugly barriers.

Bring it back to the way it was, PLEASE!!!!!!!

Lisa Yesko

Dear Counilmember Gharpetian,

I am writing to ask you to please vote against the Brand Blvd. Bike Lane Project. We live in the Casa Verdugo neighborhood that borders Brand to the East and use Randolph St. to leave our neighborhood daily. Here are the reasons I urge you to please vote against this:

-The Bike Lane has dramatically increased the danger of pulling out onto Brand as the visibility up and down Brand to see cars coming has been reduced so much. We have seen accidents there and have almost gotten into accidents ourselves since the Lane was installed.

-The actual lane of traffic on Brand is so far away from the end of Randolph now that it has effectively put 2 stop signs there, causing a lot of drivers to quickly roll past the first, original stop sign, in order to get closer to the lane on Brand, which makes it more dangerous for pedestrians crossing Randolph.

-The traffic on Brand now is atrocious and has caused us and many of our neighbors to use side streets to bypass it, which has increased traffic noise, pollution, and hazards in our neighborhood.

-It is an eyesore. The cement barriers along the Lane, the multicolored painting on the pavement, and the large flower boxes seemingly in the street. The rows of parked cars also seemingly in the middle of the street.

-Parking has become difficult and dangerous. The parking spaces are too narrow, causing visibility issues and increased likelihood of adjacent car doors opening into your car. The

traffic flow is completely stopped when someone is waiting to park or pulling out. And because there is only one lane and the cars are so close, backing out onto Brand to leave your parking space has become highly dangerous and a hold your breath and hope for the best moment.

-All this on top of the fact that I have yet to see one bicyclist using the Bike Lane.

I am a liberal person, I'm all for bicycles and reducing pollution, but when doing so causes so many other issues and makes our daily lives more dangerous and frustrating, and is seemingly not even being used by it's intended group, I am not in favor and I know of no one else in our neighborhood that is either. Please vote no.

Sincerely
Matt Long

Subject: Brand Blvd. Bike Lane Project

CAUTION: This email was delivered from the Internet. Do not click links, open attachments, or reply if you are unsure as to the sender.

Mayor Asatryan and esteemed Councilmembers:

Philosophically, I **love** the idea of bike lanes, but I don't think Brand Blvd. trial execution/configuration has constructively advanced the cause for a bike-friendly city.

Glendale unfortunately wasn't designed with bicyclists in mind — the streets for the most part aren't wide enough to accommodate secure bike paths. It will really take more thought to create protected, well trafficked bike routes to traverse our city.

My concerns with the Brand Blvd. Bike Lane are:

*Visibility is compromised for motorists driving on Brand: parked cars/parking spaces now extend extraordinarily far out into the streets going both ways.

*Further visibility compromise for motorists and significant safety hazard comes with the Amazon, Fed Ex, and other delivery trucks that park in the center lane, and drivers who run across traffic with deliveries/packages to either side of Brand.

*It's also hazardous driving across Brand on the cross streets, unless it's an intersection with a stoplight. For the Brand/Randolph intersection, many motorists still blow through as they speed up to Mountain, or head towards Stocker.

*When I walk, I find the Brand/Randolph intersection challenging -- a crosswalk and stop signs would be MUCH better for pedestrians wishing to cross Brand at Randolph than the current barriers, multicolored waiting areas for those of us gaging on-coming traffic.

*It's hard for the fire department to safely depart and enter the station, and when traffic is backed up during commute times, motorists have no where to go/ pull over to the side when those fire and emergency vehicles need the right of way.

*Since the Bike Lane was put in, I've seen **just one** person on a bicycle use it, going south in the southbound bike lane (incidentally without a helmet). I understand most bicyclists don't want to cycle north and south on Brand because of all the intersections, with and without lights — they have to start and stop too often, so they instead use the lesser trafficked, calmer residential streets to get to Glen Oaks or Mountain, and they skip Brand altogether.

*The overflow of those motorists not wanting to use Brand because of the above now spills onto Maryland and other parallel streets, providing some speeding vehicles and more traffic congestion for those residents, as well as more cars parked along bordering residential streets because drivers don't have the visibility issues they do trying to back out of spaces on Brand.

*Esthetics are subjective of course, but the entire configuration and setup is an eyesore. Were this to be permanent, I'm assuming the white concrete barriers would disappear and be replaced with hedges? Or something that doesn't make the street look like a construction zone?

Thanks for allowing me to voice my concerns.

Sincerely,

Laurel Whitcomb

Subject: North Brand Boulevard Bike Demonstration Project - Petition to Terminate

CAUTION: This email was delivered from the Internet. Do not click links, open attachments, or reply if you are unsure as to the sender.

Hello Councilmember Kassakhian,

Three short weeks ago, I started a petition on Change.org to garner supporters to terminate the North Brand Boulevard Demonstration Project. As of the writing of this e-mail, 2,222 individuals have signed the petition. 75% or 1,667 are from the 3 zip codes near the epicenter of the project. The counter petition has 323 supporters with only 61% or 197 from the same area. Between the two petitions, 10 to 1 are opposed to the project and want it terminated.

Here is a link to the petition: <https://chng.it/Y2BjphG9YZ>

A list of all signatures is attached, as well as the comments some signers added to the petition.

I will be present this evening, but the overwhelming majority of Glendale residents are clearly saying that they do not want this project to continue and we are asking that you choose Option 3 to end the chaos and disruption it has caused.

Regards,

Lee Straus and Gregory Thieme
