

Green Business Program

Public Works Department

March 26, 2024

Key Attributes

- Glendale is a member of California Green Business Network (CAGBN) along with 50 other Cities and/or Counties ranging from San Diego to Marin County
- CAGBN's checklist of certification measures help businesses improve energy and water efficiency, recycling, green procurement, improve their healthy business model, and develop community engagement
- The program provides free assistance to the office, retail & restaurant sectors

City Council Presentation of Certified Green Business Awards

Community Partners Contract

May 1, 2024-April 30, 2025: \$155,250

Scope:

Administer Glendale's Green Business Program

Objectives:

- Enroll thirty (30) new businesses
- Perform onsite site assessments with individual guidance
- Certify 15-20 businesses for new and/or recertification at no cost
- Include organics recycling as a mandatory green business measure
- Facilitate low or no-cost retrofits via Glendale Water & Power Business Energy Upgrade Program
- Facilitate rebate applications for eligible businesses

Reporting:

- Calculate resource saving impact metrics/data as needed
- Generate CAGBN reports as needed

Recommendation

Public Works requests City Council approve a Motion executing a new PSA with Sustainable Works, a Project of Community Partners (Community Partners) for \$155,250 to Administer and provide direct outreach for Glendale's Green Business Program for one year through April 30, 2025.

To continue promotion of commercial efficiency and sustainability through:

- Decreased Water & Energy Use
- Decreased Toxic Product Use
- Reduced Waste Generation
- Reduced Transportation Emissions
- Increase Purchasing of Environmentally Preferable Products
