

**ORDINANCE NO. 19-1398**

**AN ORDINANCE OF THE CITY OF HERMOSA BEACH, CALIFORNIA, AMENDING CHAPTER 8.64 OF THE HERMOSA BEACH MUNICIPAL CODE TO EXPAND THE BAN ON POLYSTYRENE FOOD SERVICE WARE TO INCLUDE A BAN ON CERTAIN POLYSTYRENE PRODUCTS, SINGLE-USE PLASTIC PRODUCTS, AND SINGLE-USE PRODUCTS AND AMENDING CHAPTER 1.10 TO MAKE VIOLATIONS OF CHAPTER 8.64 AS AMENDED SUBJECT TO ADMINISTRATIVE PENALTY PROCEDURES**

**RECITALS**

A. The state Legislature recognized that littered plastic products have caused and continue to cause significant environmental harm and have burdened local governments with significant environmental cleanup costs. (California Public Resources Code §42355.)

B. To fulfill the City of Hermosa Beach's goals of reducing littered plastic products, the Hermosa Beach City Council adopted an ordinance banning polystyrene food service ware on September 11, 2012 (Ordinance No. 12-1332) and adopted an ordinance banning the use of plastic carryout bags on September 1, 2015 (Ordinance No. 15-0648).

C. Despite these efforts, the City continues to confront littered plastic, including other types of polystyrene products, such as coolers, packaging materials, egg cartons, and meat and fish and produce trays, as well as other types of plastic products, such as plastic straws, stirrers, and utensils. The City is also confronted by littered balloons on the streets, parks, and beaches.

D. Balloons and plastic pollution, including polystyrene and single-use products, raise environmental and health concerns related to water pollution, the welfare of marine life, and human health.

E. A ban on certain additional polystyrene products, single-use plastic products, and other single use products will further serve the City's goal of reducing litter.

**The City Council of the City of Hermosa Beach does ordain as follows:**

**SECTION 1.** Chapter 8.64 of Title 8 of the Hermosa Beach Municipal Code is amended to read as follows:

1 City of Hermosa Beach by prohibiting the use of certain polystyrene products, single-use plastic  
2 products, and single-use products.

3 A. Polystyrene, a lightweight petroleum-based plastic material, is commonly littered or  
4 blown out of trash receptacles, is difficult to clean up, and migrates to the storm drain system and  
5 eventually to the ocean and beaches.

6 B. Balloons and other plastic pollution, including single-use plastics and polystyrene, also  
7 negatively affect the environment and have raised environmental and health concerns related to  
8 water pollution, the welfare of marine life, and human health.

9 C. These regulations will reduce polystyrene use and litter in the City; reduce the  
10 distribution of disposable single-use plastic; reduce single-use waste; reduce balloon litter; reduce  
11 greenhouse gas emissions; and reduce threats to natural ecosystems and ocean wildlife, in order to
