

There is no Planet B

Together, let's take care
of our community

Small Steps We Can All Take

Things We Can Do to Help the Environment

☐

Save electricity by plugging appliances into a power strip and turning them off completely when **not in use**, including your computer.

☐

Stop paper bank statements and pay your bills **online** or via mobile.

☐

Air dry. Let your hair and clothes dry naturally instead of running a machine. If you do wash your clothes, make sure the load is full.

☐

Take **short showers**. Bathtubs require gallons more water than a 5-10 minute shower.

☐

Buy **minimally** packaged goods.

☐

Use a **refillable** water bottle and coffee cup. Cut down on waste and maybe even save money at the coffee shop.

Pledge to make these changes today!

SMALL ACTS OF SUSTAINABILITY

LET'S TACKLE CLIMATE CHANGE

Turn off the tap when brushing your teeth and while soaping in the shower.

When ice cubes are left over from a drink, don't throw them away. Put them into plants.

Only fill the kettle to the amount of water needed.

Only buy what you need. 20-50% of the food we buy ends up in a landfill.

Use fewer plastic products, which often ends up in oceans causing the death of marine animals.

REUSABLE MASK.**
