Mayor Kassakhian and Members of the City Council  
City of Glendale  
613 East Broadway  
Glendale, CA 91206

RE: Restructuring and Increase of Solid Waste Collection Rates

Dear Mayor Kassakhian and Council Members:

The Glendale Homeowners Coordinating Council (GHCC) and our member Associations are deeply committed to uniting of our neighborhoods, preserving our rich architectural heritage, and protecting our quality of life throughout the city. We have been engaged partners with the City in outreach and projects. That engagement will continue, and our goal is to improve the efficacy of not only our engagement but engagement throughout our city.

Given that the restructuring and increasing of rates for Solid Waste Collection impacts every resident of the city, the outreach conducted by the city was not adequate:

- Only one mailing was sent at the end of October after the item was first presented in September announcing the hearing immediately after the holiday closures of the City.
- The staff reports states "In addition, all three versions of the letter were made available on the City's website along with the final COSA Report,". Finding this information was difficult as it was buried in the City website at <https://www.glendaleca.gov/government/departments/public-works/integrated-waste-management/residential-1-4-units/rate-change-2022> with no navigation from the main page.
- Additionally, this information was inaccessible to anyone using an Apple device.
- The GHCC is not aware of any other outreach efforts. Notices with service bills were not sent. No effort was made to reach the owners of residential rental properties who do not directly pay the service bills.

This issue was discussed at the January GHCC meeting with several questions being raised:

- Currently rates are set based on service with residents having multiple bins for green waste and recycling. Will the rate structure change to match the current franchise structure of charging per bin?

- Does the provided graph comparing rates among cities included in the staff report and others include the projected 25% annual increases following the initial increase? What are the calculated rates as of July 2024?
- The item of Commercial Franchising listed as one of the five Significant Factors Driving Cost Increases received the most discussion in the Report. What alternative mitigation measures were considered to address this item as this is a self-inflicted wound created by the City with its decision to create the franchise system?

Our discussion led to several other questions based on the lack of clarity and understanding of the reports. There is a hope that the staff presentation at Council will allow more understanding. Our member associations do want the best quality of life for our neighborhoods and are often the first resource for residents. We want to have better information to share.

An issue that is a significant absence is the lack of any incentives to reduce the impacts of Solid Waste Collection. Apart from the single option of a smaller refuse bin, there are no mitigations proposed that would encourage reduction or better handling of solid waste by city residents. Residential composting, recycling or other efforts are not addressed.

The GHCC encourages Council to provide Staff direction to increase both the quantity and quality of outreach on this item. Our desire is that Council will take advantage of the delay of a decision tonight to improve the understanding of this item and allow the community to support a well thought out and presented rate structure.

Sincerely,

A handwritten signature in dark ink, appearing to read "Grant Michals". The signature is fluid and cursive, with a long horizontal stroke at the end.

Grant Michals

Glendale, CA 91206

Dear City Council Members,

I am the owner of 1263 Oakridge Drive, Glendale, Parcel #5676 025 002.

I am writing to oppose the proposed rate increase for our sanitation services for single family residences. The costs proposed for the next five years are outrageous. The city must keep costs down for Glendale services.

Sincerely,

A handwritten signature in dark ink, appearing to read "Kay Hostetler", written in a cursive style.

Glendale, CA 91206

Dear City Council Members,

I am a co-owner of 476 Vine Street, Glendale. It is a property with two duplexes. The Parcel # is 5696 009 033.

I am writing to oppose the proposed rate increase for our sanitation services for residents. The costs proposed for the next five years are outrageous. This is a very large raise in costs for tenants whose utility bills include trash and electricity.

The city must keep costs down for Glendale services.

Sincerely,

A handwritten signature in dark ink, appearing to read "Kay Hostetler", written in a cursive style.

Re: Glendale Waste Management  
Proposed Rate Increases

My name is Barbara Wildermuth and I am the legal owner of the property at 843 Sharnold Ave., Glendale, Ca. 91202.

I am adamantly opposed to the outrageous rate increases the City intends to impose on the people of Glendale.

Making up for 12 years of so-called "no increases" at a time when a lot of people are struggling with high inflation and high prices is unacceptable.

It has not gone unnoticed the sly tactics that the City has used to inform people. Sending this notice at the busiest and most distracting time of the year and placing the paragraph about written protests at the very end of the notice is very deceptive. I am very disappointed in the City Council for allowing these tactics.

Greetings

My wife and I own and reside at 1431 Irving Avenue in Glendale. (AIN: 5622014022).

I oppose the City of Glendale's proposed rate increases for solid waste disposal. The re-structuring of solid waste disposal services over the past two years has been a disastrous failure. The transition to private haulers in lieu of municipal operations has not resulted in promised cost savings or service improvements. For these reasons, fee increases are not warranted at this time.

Thank you for the opportunity to comment.

SAM ENGEL, JR.  
Property Owner, 1431 Irving Avenue, Glendale

Dear Sirs:

I would like to indicate my complete opposition to the proposed solid waste rate increase being considered by the City of Glendale. I think there must be a better alternative than what is being proposed.

I think the voters in Glendale need to look very hard at their elected representatives if this type of action is allowed to go on. I know that my efforts and financial contributions will be in support of those candidates that look out for our (the citizen's) interests.

Sincerely,

City of Glendale  
City Clerk  
613 East Broadway – Room 110  
Glendale, California 91206

Dear Sirs:

I would like to indicate my complete opposition to the proposed solid waste rate increase being considered by the City of Glendale. I have lived in Glendale for over 45 years and this monumental increase in the rates is unprecedented. I have no idea what is going on with the management in this department, but it seems they are taking the easy way to their budget requirements by hammering the citizens of this city with a giant rate increase rather than working diligently on finding ways to deliver solid waste service at a reasonable and fair price.

I think the voters in Glendale need to look very hard at their elected representatives if this type of action is allowed to go on. I know that my efforts and financial contributions in upcoming elections will be in support of those candidates that look out for our (the citizen's) interests.

Sincerely,

Michael Turner

**RE: PROTEST AGAINST THE PROPOSED SOLID WASTE RATES**

We, Stephen B Page and Tamara N Page, Glendale Homeowners, strongly OPPOSE and PROTEST AGAINST THE PROPOSED INCREASED SOLID WASTE RATES.

We are seniors and prices are already too high on water, power, and gas. We seniors don't need additional rate hikes. Most of us are on a fixed social security budget in our neighborhood

I see no reason why the rates are going up astronomically this year and next year, as I hear about it from other disgruntled homeowners. These changes are ridiculous.

### **My Information**

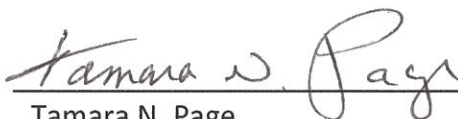

Owner: Stephen and Tamara Page  
Address Location: 1506 Raymond Ave, Glendale, CA 91201  
[stevebpage@gmail.com](mailto:stevebpage@gmail.com) and 714-822-9523  
APN: 5622 008 932

### **My solutions:**

1. First try renegotiating with your Solid Waste Vendor.
2. Limit increases to no more than 10% per year.
3. Give discounts for seniors over a certain age, for example 70+ not make them pay more.

Signed:

Dear Dr. Abajian,

I am writing on behalf of the Northwest Glendale Homeowners Association, in the capacity as its Vice President.

The purpose of this letter is to oppose the City of Glendale's proposed rate increase for solid waste disposal. We represent a significant number of households who own and reside in the City of Glendale, in the neighborhoods bounded by Brand Boulevard to the East; the City of Burbank to the West; Glenoaks Boulevard to the South; and Brand Park and the mountains to the North.

This issue is of paramount importance to our membership.

Thank you for your consideration.

Sincerely,

By: Lawrence J. Kalfayan, Vice President

Re: Protest of the Increasing and proposed Sanitation Rates

For: 933-929 S Brand Blvd Glendale, CA 91204 (Assessor's ID No 5641 017 095)

Property Owner: Nancy Hathaway

Dear Esteemed City Council,

I, Nancy Hathaway, am the property owner of 933-929 S Brand Blvd, CA 91204. Since the City of Glendale has commissioned a new Waste Resource Management Co. – Waste Resources Glendale, it has been my unfortunate experience to be treated like a prisoner in my own business, by holding me hostage to their increased rates, and uncivilized tactics of doing sound business.

Originally on 1/6/22, I signed a Service Confirmation Agreement with Waste Resources Glendale. Once that was in place, Waste Resources Glendale, tried to increase my rates on several occasions. I then asked for a sight inspection to determine my waste needs. On 8/4/22, I met with Maria Gomez a Recycling Coordinator, and we both agreed on my waste service's needs. Maria had me sign a new agreement on the spot 8/4/22. Shortly thereafter I received a Correction email – stating that Ms Gomez gave me incorrect pricing. I responded with "Firstly, an apology would have been more ethical from your waste management company, for quoting incorrect pricing. I'm sure your staff (Maria Gomez) would appreciate effective communication on rate changes before sending them out in the field."

I also spoke with China McCovery, a Waste Management Authority, who told me that "The World has been calling me!" and since their company bid-it-out, they have a 7 year contract, there is no recourse other than to pay on demand. All I got was jabberwocky after that.

I sincerely hope you will accept this PROTEST LETTER.

Kind regards,

Nancy Hathaway

RE: Proposition 218—Letter in opposition to the proposed rate increases for solid waste

To Whom it May Concern:

I am the owner of the property at 428 Spencer Street, Glendale 91202, Assessor Parcel Number 5633-21-12. I am a senior citizen who has been widowed for the last 20 years. In all those years, I have never filled up either my trash can or my recycle bin. Most weeks they are less than 25% full.

I am very distressed over the proposed enormous rate increases. I already pay huge electric and gas bills as well as my property taxes. I live on social security and a small pension. I cannot understand the justification for these increases.

Thank you for your consideration in NOT passing these horrific rate increases.

Sincerely,

Yudi Elka Bennett

Re: Proposed Sanitation Rate Increase

Dear City Clerk:

I am a Glendale resident and property owner. I am writing to express my opposition to the proposed solid waste rate increase. My property is located at APN: 5649 027 014 and the street address is 921 Hillcroft Road, Glendale, CA 91207.

Thank you in advance for your consideration.

Elise Demerdjian

Re: Proposed solid waste increases for single-family residential customers

From: Jessica Boucher

Tenant of 1127 Princeton Drive

Assessor's Parcel Number: 5678-004-014

To Whom It May Concern:

I am writing to protest the proposed solid waste rate increases for single-family residences in the City of Glendale. While I appreciate the City's need to increase current rates for waste collection, and the reasons laid out in the notice, the proposed increases are exorbitant. With rates more than doubling for all customers in a single year and then continuing to climb to as much as 4 times higher over 5 years, the expense will impose an unnecessary burden on Glendale families (I know it will do so for my own).

I respectfully request the City reconsider and adjust the current plan to a more reasonable and measured increase, perhaps with a one-time increase over 5 years, or more incremental rate increases that will no more than double the current rate over 5 years.

Enclosed please find a copy of my lease agreement and a recent GWP bill as proof that I am the current occupant of the address noted above and the account holder responsible for payment of solid waste fees at the indicated residence.

Respectfully,

Jessica Boucher

July 31, 2018

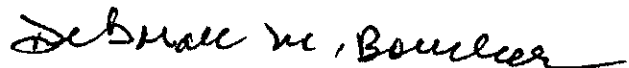

Lease Agreement Between Michael/Deborah Boucher and Jessica Boucher and Shiloh Turner  
re: Annual Lease of the real property 1127 Princeton Drive, Glendale, CA 91205.

Jessica Boucher and Shiloh Turner agree to pay Michael and Deborah Boucher \$1,000 per month for the annual lease of the real property 1127 Princeton Drive, Glendale, CA 91205. Payment will be made on the 1st of each month. This lease is renewable on August 1st of each year by mutual agreement of both parties.

City of Glendale  
City Clerk  
Room 110  
613 E Broadway  
Glendale - CA 91206

Monday, 9th of January 2023

To City of Glendale City Council, and/or to Whom It May Concern in particular:

This letter serves as our formal protest to the recently Proposed Increase in Solid Waste Fees (or such monthly rates) by the City of Glendale.

We are Geoffrey and Elisabeth Chappell, tenants (and close relatives of owner) and Holden E. Shannon, owner, of our home on 305 E Randolph Street, Glendale 91207.

As tenants, (retired), we are responsible for the monthly cost of waste removal. The level and speed of increase in the first place, but the proposed rise in cost in general, is something we firmly oppose, an we sincerely hope City Council will reconsider this Proposal.

Yours truly,

Handwritten signatures of Geoffrey Chappell and Elisabeth Chappell in blue ink, positioned above a horizontal line.Handwritten signature of Holden Shannon in black ink, positioned above a horizontal line.

Friday, January 6, 2023

City of Glendale  
City Clerk  
613 E. Broadway, Room 110  
Glendale, CA 91206

Dear Mayor Kassakhian and the members of our Glendale City Council:

We would like to add our voices to the protest against the unbelievable proposed rate increases for solid waste services here in Glendale, as detailed in the letter sent to residents this past October.

We have owned our home at 1305 North Louise, Glendale, CA, since November of 1998; the L.A. County Assessor's ID No./parcel number is 5647-007-009.

Most reasonable people understand that the cost of city services including solid waste disposal may increase over time, but the proposed tripling of solid waste disposal costs by July of this year -- and what amounts to a seven-fold increase by July of 2027 -- is incomprehensible. There has to be more effective and efficient waste disposal servicing for our community! We urge you to reject this proposal, and seek bids from other providers, provide alternatives to this servicing or negotiate reasonable collection/disposal rates for your constituents.

Sincerely,

Laurel Whitcomb Perlman

Marie-Claire Sallaberry  
1411 Randall Street  
Glendale, CA 91201

January 9<sup>th</sup>, 2023

To Whom It May Concern,

My name is Marie-Claire Sallaberry and I am the owner of the residence at 1411 Randall Street in Glendale, CA 91201.

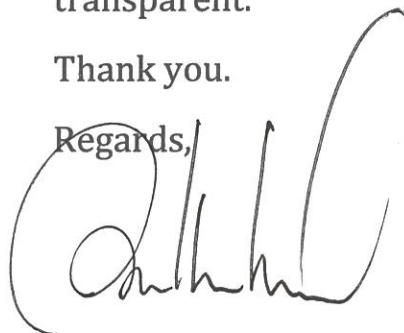

This letter is to express my strong opposition to the outrageous proposed solid waste rates increases. The proposed rates are not proportional and reflective of the residences usage depending on the amount of trash generated by the occupant(s) and the frequency of pick-ups.

The property description is as follow: Tract 9915; Lot 17; Blk A

Some sort of scanning system could be placed in the grabbing arms of the trucks at the time of the pick-ups and could read a bar code on the trash barrels assigned to each residence. This would be registered and logged into a digital system and each residence billed accordingly based on the frequency and the number of trash barrels to be emptied. This would be more equitable, efficient because of its technology and transparent.

Thank you.

Regards,

1/6/23 Rate Protest for Trash Pick-up CITY CLERK

2023 JAN -9 AM 10:42

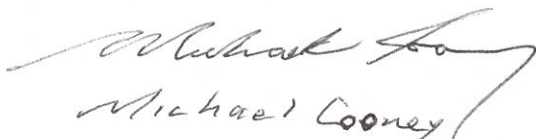

To Whom It May Concern  
and Glendale City Council

This is to protest the proposed trash collection  
rate increase. Please do not implement this.

For 2026, three years from now, it's a \$510.00  
increase over present ~~rated~~ rates for the year. Outrageous!  
For so many on fixed incomes, a hardship. In year four, a  
\$568.00 increase.

Please reconsider and do not put this burden on all of us.

Sincerely,

Michael Cooney  
360 Brockmont Dr.

CITY CLERK  
2023 JAN -9 AM 10:42

The undersigned owner of the property at 1458 Irving Avenue, Glendale 91201 is OPPOSED to the proposed rate increases in solid waste pickup.

Why should current property owners have to bear the brunt of the cost of solid waste disposal, when for the past 12 years the City Council and the leadership of the Waste Management Department have done nothing to mitigate the increase. Poor planning and a lack of understanding of the growing lack of disposal sites caused this problem. They should address this problem directly, without passing it on to the citizens of Glendale as a simple solution.

Sincerely,

A handwritten signature in cursive script that reads "Timothy McNiff". The signature is written in dark ink and is positioned above the printed name.

Timothy McNiff

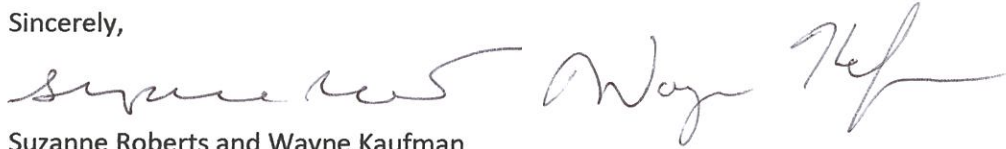

LtCol, USAFR, Retired

Re: Proposed Rate Adjustment  
Hearing scheduled for Jan 10, 2023

Dear Members of the City Council

We are the joint owners of the property at the above address, whose Los Angeles County Tax Assessor's Identification number is: 5659 012 008 22 000.

We are happy to live in Glendale, and grateful for governance of our city. In the over thirty-four years of homeownership in this city we have never complained about anything to the City Council; we must however protest the following:

The proposed escalated rate increase is too sudden and too much. We understand that rates must increase with the passage of time, but the proposed increases are too steep for most people to adjust to, and especially difficult for seniors on fixed incomes.

Please reconsider the proposed changes.

TO THE GLENDALE CITY COUNCIL:

CITY CLERK  
2023 JAN -9 AM 10:34

**Re: January 10, 2023 Public Hearing/Proposed Rate Restructuring and Increase of Solid Waste Rates**

**This letter is submitted in opposition to and protest against the proposed solid waste increase – and - the revised Ordinance Relating to Solid Waste Rates.** As your constituents, we ask that you reject the proposed rate increases as currently set forth. They are too high, too fast. A nearly tripled rate within less than two years is unreasonable and unconscionable. If changes in Sacramento are to blame, then push back against Sacramento, rather than passing this on to your tax paying residents. This is a tipping point.

In compliance with your stated rules:

1. We (Strohe and Mary LaCroix) own the residential property located at 1405 Andenes Drive, Glendale, CA 91208.
2. We (Strohe and Mary LaCroix) oppose the proposed rate increases.
3. This letter is being mailed for delivery to the City Clerk by January 10, 2023.

We are unfamiliar with how the “protest rules” came about, but it seems they are guaranteed to make it so that a majority of property owners’ objections to this outrageous gouging of the residents of Glendale are not heard or counted. In other words, the fix appears to be in, such that there will never be a “majority” of opposition in qualifying writing. No consumer would ever be agreed to such a rapid rate increase; maybe the rule should require those who agree to send in such a letter . . .

Sincerely,

Strohe LaCroix

RE: Protest of the proposed solid waste rate increase

Dear Glendale City Council,

My name is Pam Sable. My husband Jeff Sable and I have resided at the same Glendale apartment for 28 years. We have not had a need to move as we love living in Glendale with all it has to offer. I am a native Angeleno, having been raised in nearby Silver Lake.

We do, however, oppose the proposed solid waste rate increase. Almost 100% increase?! Almost quadrupling in 4 years?! Even the U.S. economy has not seen that kind of inflation in 2022.

Inflation is occurring. Perhaps a solid waste increase more in keeping with the national (or even California) economy's inflation rate would be easier to accept. Thank you for your time. Apologies for the water-stained GWP bill enclosed as proof of tenancy.

Respectfully,

Pamela Sable  
626 Glenwood Rd.  
Glendale, CA 91202

**Address: 1225 Oberlin Drive, Glendale, CA 91205**  
**Los Angeles County Assessor's ID: 5678 014 017**  
**Homeowner: Elizabeth A. Prescott**

I, the homeowner at the above referenced address am 100% **opposed** to the proposed increases for solid waste in the City of Glendale.

The cost of our single family home for utilities including waste management services is already expensive. Your proposed increases of 182% to 358% in the next 4 years is OUTRAGEOUS! If your department has been mismanaged or has over extended itself then there must be a way to cut back and not pass the costs on to the residents of Glendale. You must find another way. Most of the residents will not be able to afford yet another increase on top of natural gas increases, water and electricity increases, etc., etc., etc.

Thank you for your attention to this matter.

Elizabeth Prescott

January 2, 2023

Dear City of Glendale,

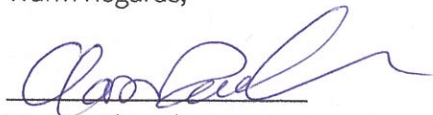

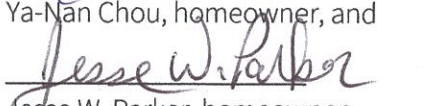

Property owners: Ya-Nan Chou and Jesse W. Parker, trustees of the Chou and Parker Trust  
Address: 204 Western Ave. Glendale, CA 91201

We are writing as homeowners of 204 Western Ave. Glendale, CA 91201 in opposition to the Proposed Rate Restructuring and Increase of Solid Waste Rates. The proposed rate structure is unfair and antiquated, especially for families who create very low volume of garbage. As a household of two, we generate fewer than 20 gallons of trash per week, yet we share the same financial burden as a large family who generates 64 gallons of trash. The goal of the city should be to focus on encouraging residents to consume less and recycle as much as possible. The rate structure of solid waste collection should be volume based with more tiers than the current structure, similar to other utilities such as gas, water, and electricity.

There are numerous cities and government agencies that Glendale can learn from and model after. Please conduct thorough researches, consult experts, and find resolutions before raising the rate.

We would also like to express our disappointment in the city for not providing the streaming information of the public hearing and refusing to accept the protests in the electronic forms. Please consider equal access to all who can and can not attend the public hearing in person.

Warm Regards,

  
Ya-Nan Chou, homeowner, and  
  
Jesse W. Parker, homeowner

City Clerk  
CITY OF GLENDALE  
613 E, Broadway, Room 110  
Glendale, CA 91206

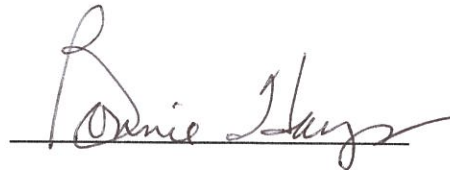

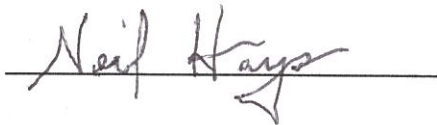

We are writing to you regarding the Proposed Solid Waste/Refuse Rate Increase. Our names are Neil and Bonnie Hays and we live at 840 Burchett Street, Glendale 91202. The Assessor Parcel Number is 5635-014-001. We purchased this property in 1980 and The Hays Family Trust is the owner of record.

Please be advised that we are vehemently opposed to the City's proposed refuse rate increase! These propose fees are outlandish. Perhaps if the City had rethought their ill begotten plans to build hundreds of apartments and condominiums, causing extra solid waste, we would NOT be in such a situation. Now that the City is unable to manage the waste, because of your bad decisions, you are placing the burden on the homeowner. Where was your foresight when you decided to overbuild the city?

Please consider this letter as our formal protest to the proposed increases!

Sincerely,

Neil and Bonnie Hays

2023 JAN -9 AM 10: 28

To: Glendale City Council  
Re: Ordinance Relating to Solid Waste Rate Increases  
From: Stephen Beebe  
429 Cumberland Road  
Glendale, CA 91202

**I am writing to you to express my strong opposition to the proposed solid waste increase for residential property owners in the City of Glendale.**

Increases of 82% to 150% in a single year and more than 358% to 492% in 5 years is an unfair burden to place on residents of Glendale who are already struggling with the wide ranging effects of inflation as well as high housing prices. Many of us are on fixed incomes and others are struggling to keep up with mortgage payments on newly purchased homes or high rent costs in our city. Increased costs like these that have been proposed can and will cause undue hardship.

Further, the tactics you are using – requiring a majority of registered property owners to oppose the increase – is completely unfair. Asking for public feedback and restricting the group of people that can respond is disingenuous. According to rentcafe.com, towncharts.com and point2homes.com, 66% of Glendale residents are renters. Owners of rental units and rental homes will simply pass the increases on to their renters who have no voice in this action..

Your tactics eliminate more than half of the possible respondents to this action; most Glendale residents will not know of this action, and even if they did, they would not be able to share their concerns as you have excluded them with your requirements for responding. The fact that you will not consider opposition to this ordinance through petitions signed by Glendale residents demonstrates that you are not really interested in truly finding what the public wants, but rather are determined to push through this rate increase. This sounds unconstitutional and it is certainly unethical.

If rates really do need to be increased, stretch the increases out over a longer period of time. Your letter states that it has been 12 years since the last rate increase – instead of attempting to get that all back in a 5 year period evenly increase rates to the necessary level over 10 to 15 years so you don't harm the people you serve.

I believe I speak for thousands of Glendale residents in opposing this ordinance as it is proposed.

APN 5622 004 018 22 000

As the owner of the above stated single family residence I am shocked at the proposed rate increase for our sanitation services.

This household has been using a 64-gallon cart for which the initial rate increase is 150% effective Feb. 1, 2023. That is outrageous! and another 74% over the next 4-1/2 years.

In this household we pride ourselves on reducing waste and recyclables to an absolute minimum. Our bins are not out on a weekly basis, in fact sometimes not for several weeks or a month. Especially the ones that we are not supposed to put out on the curb until they are full.

I realize that costs go up over the years but this is not what you call "fairly" charging your customers. It might be more economical to educate the public on how and when to dispose of their waste (like collapsing their cardboard boxes) and to pick up the empty bins on the day of collection before they spread into the street negatively affecting traffic and parking. It seems that a number of newer neighbors are just not following the City's guidelines on waste collection.

Sincerely,

*Roswitha Zundler*

Re: Garbage Rate Increase  
Property Address  
1338 Idlewood Rd.  
Glendale, CA 91202  
5628 010 013 22 000

Dear City Council Members,

As property owners, we are writing this letter to protest the proposed solid waste hike over the next five years. (358%).

We purchased this property in 1993. We have supported our community and taken pride in its services. We believe that other options could be explored. For example, allow Glendale city only to use Scholl Canyon landfill and that will extend its capacity or pick up every other week as an option. This increase will be a hardship to us on our fixed income.

We know the city has made some management and financial decisions that is now resulting in a need for extra revenue but this is not the way to gather funds.

Respectfully,  
Donald L. Longtain Jr.

350 Burchett St Unit 109  
Glendale, CA 91203  
5636 014 052 22 000

Dear City Council,

We are writing to you to protest the proposed solid waste hike over the next five years. Rosanne has owned this property since 1985. We were married in 1987 so we have had a vested interest in this community for over 38 years.

When we purchased our home in 1993, also here in Glendale, we decided to rent this property. We have always tried to make our rent affordable and this increase will hurt the rental community because it will force property owners to increase their rental prices.

We do not understand how you can talk about affordable housing with ADU and rental property and then do this to renters.

Please do not increase rates this way. You will be hurting your community.

Respectfully,  
Rosanne R Longtain  
Donald L. Longtain, Jr.  
Trustees of the Longtain Family Trust

Dear City of Glendale Clerk:

We are Glendale residents and property owners. We have lived in Glendale for 24 years. We are submitting a formal letter of protest against your proposed solid waste rate increase. We are completely against and opposed to this increase.

While we understand that rates have not increased in a while, the City continues to build new condos, which are clearly utilizing more city services and more water use. When is the City going to stop adding people to Glendale, which is already glutted with traffic and usage issues?

Why not consider a lower rate increase, then, if necessary, create another in a few years – do it a little at a time. This is a difficult time for many of us due to the pandemic, trying to catch up on income and health.

Thanks for your consideration.

All the best....

pay because their site was not showing me the bill. I picked \$200.

That makes a grand total of \$702.82 for four months.

Also there is the gas bill that I paid today. That was only \$44

Splitting bills three ways each of you owes:

\$14 for gas

\$167 for power

total = \$181

**Letter of protest to the proposed rate restricting and increase of solid waste rates**

**Attention:** City Council, Public Works Department, Integrated Waste Management Division,

Please reconsider the solid waste rate restructuring proposed at the public hearing on Tuesday, January 10, 2023. The first proposed increase is a 150% adjustment in February 2023 for Single Family Cart Service.

I do not know anyone or have heard of anyone who has ever received an increase in pay of 150%. The proposed rapid rate increase in such a short period of time is not realistic to the ratepayers. Although the rate increase has not happened in more than 12 years, the last increase was in 2010, the lack of attention or planning on your part does not necessarily mean I need to pay for the lack of attention to the costs on the part of the city or the waste management department.

In other words, a 150% increase in rates in February 2023 is such a significant jump in rates It is not within the reasonable means of the ratepayers.

Please consider directing the waste management department or whoever is responsible for the management of rates the increase should occur much slower than proposed.

The current proposal is a 200% increase in rates over 18 months.

The total rate increase should divide evenly over 10 years.

I will not see an increase in income of 200% in order to pay the proposed rates. The current rate of inflation is less than 10% of the economy. Incompetence should not be rewarded or covered up by the city council.

The cost of providing services will understandably increase over time. The city of Glendale should not force ratepayers to cover the cost of a department making bad decisions. The choices regarding the cost of services should be made only after the city council understands when the ratepayers can afford the increase. It should be obvious if there are more defaults in the payment when the plan is implemented, then the ability to pay for the costs will still not be met.

I understand this is an argument that will be ignored, and the proposal will proceed as planned regardless of the number of protests. There will be some error in the protest procedure giving justification. Regardless, please consider moderating the pace of the rate increases to the ratepayer's cost of living and ability to pay. I want to live in a successful affordable city, and you should too.

Sincerely,

Craig A. Boguslawski

CITY CLERK

2023 JAN -6 PM 2:45

Dear City of Glendale

I am writing to express my opposition over the proposed increase in sanitation rates. It is too much of an increase for most residents especially Seniors, the disable and others living on a fixed income. With inflation currently so high and cities/people recovering from the pandemic, finances are tight for many in our community and this increase will put an additional strain on everyone trying to make ends meet.

Please reconsider this unrealistic increase. Options I see are to make rate increases lower and happen more slowly. Or use other public funds, like the Verdugo Wash project dollars to fund this program. Sanitation is more important than beautifying the city right now. This is not the citizen's issue, Glendale let this problem grow for over 12 years with no increase in sanitation costs and now the citizens are going to be burdened financially for the city's mistake and lack of action.

I am the property owner of record on the parcel.

Marshall Rita A TR

Dear City Council & City Clerk,

This letter is to officially express my opposition to the proposed increases for Sanitation services in Glendale.

As a resident of Glendale for over 50 years and a home owner I find the high rates I am charged to be burdensome.

I am a senior on a fixed income and have difficulty paying even the current rates let alone an increase. And, this increase could not come at a worse time -- inflation and looming recession.

Please, please, please do not increase our rates!!!

Thank You!

Sincerely,

Ina Jean Berger

Re: Protest regarding the proposed new solid rate increase.

CITY CLERK  
2023 JAN -6 AM 10:44

This letter of protest is being submitted based upon information published in the Glendale News-Press, December 24, 2022, Letter to the Editor. I have reviewed that the new rate for solid waste services will increase 182% in February, 2023, from 2022 rates. Then on July, 1, 2023, increase 228% of the 2022 rates, and then in July, 2024, the increase is 285% of the 2022 rates. Rates continue to increase in July of 2025 to 308% of the 2022 rates. Further increases in July 2026, to a 333% increase, and finally, in July, 2027, another increase that would be 358% of the 2022 rate.

This letter is not only written in protest, in regards to the above increases, but with a consciousness of *mercy for the general public*. *Not only will this effect homeowners, but it will also be a cause for an increase in rental rates.* The majority of the general population has already been severely affected by the shutdown of the economy in 2020, due to Covid 19, and thereafter, most were greatly affected by the significant increase in gasoline, which caused a substantial increase with consumer goods.

Along with this currently being an excessively inflationary economical period, there is no-way that salaries would elevate anywhere close to the above increases, and there is nothing people on a fixed income, especially retired senior citizens, can do to offset this expense. Therefore, there definitely needs to be a re-evaluation towards this excessive upsurge.

I can only hope that you receive enough letters of protest as well as have a conscious reevaluation towards this extreme expenditure effecting the moral majority in the general public, living in the City of Glendale.

Sincerely;

Maria La Masa

To the City of Glendale City Council,

As a longtime resident of City of Glendale, I understand the issues and difficulties that the city council faces and would have supported a reasonable rate increase; however, a 175% rate increase is outrageous and unjustifiable. What happened to rate increase of 10-15% each year so that residents can adjust to the increases. The City of Glendale proposed increase of solid waste rates are unreasonable, unfair, and outrageously high.

An alternative solution to increase revenue for the city can be green and recycling collection pick up reduction to twice a month instead of weekly. Also, smaller containers for refuse to encourage more composting by residents who have single family homes will reduce the landfill costs. I am certain that residents will adjust to the changes and support this move instead of the proposed enormous rate hikes for the waste collection.

Thank you.

APN: 5623-038-019

Dear City Clerk Dr. Suzie Abajian.

I am a property owner here in Glendale, CA, APN: 5623-038-019. I have lived in Glendale for 60 years and am shocked at the proposed rate increase for our sanitation services for single family residences.

I am protesting the City of Glendale's solid waste rates will almost quadruple (358%) over the next five years:

In February 2023, the new rate will be 182% as a percentage of the 2022 rates. On July 1, 2023, the rate will be 228% as a percentage of the 2022 rates. In July 2024, it increases to 285% of the 2022 rates. In July 2025, it will be 308% as a percentage of the 2022 rates. In July 2026, the figure is 333%. And in July 2027, the new rate as a percentage of the 2022 rates is 358%.

This 358% increase is outrageous and especially cruel we near a total recession how can this be possible, we are all strapped as it is. I look forward to a Public Hearing so that we may voice our concern.

Thank you.

Glendale, California 91206

Dear City Clerk:

My wife Patricia and I own the residence at 1415 Norton Avenue in Glendale. The Assessor's Parcel Number 5628 002 012.

I am writing to express my strong opposition to the proposed new solid-waste rate increase.

I'm also writing to express how ridiculous it is that, if Richard Lee's letter to the editor of the Glendale News-Press is accurate, a majority of homeowners in Glendale must write you – not email you – to protest this rate increase.

And, the increase itself – a rate that in five years will be nearly four times what it is now. Have you no shame?

Most sincerely,

Dear City Clerk:

We have lived in our home since January 1992 and have lived in Glendale since 1981. I previously served on the Montrose Shopping Park Board for several terms and understand the city has challenges.

We are protesting the proposal change for the Solid Waste Rates. They are way too expensive and almost doubling by July 1, 2027, with no end in sight. The council and city staff must find a more economical way to help their residents recycle and manage waste properly while being able to stay in their homes without being priced out of the area. This proposal is just one more example of the continual rising, out of control assessments levied on the taxpayers.

Please register our protests, 2 votes no, for the upcoming meeting of January 10, 2023.

Thank you,

A handwritten signature in blue ink, appearing to read "Jeannie Bone Christopher Bone", written in a cursive style.

I AM AGAINST THE EXTREME HIGH RATE PROPOSAL FOR SOLID WASTES

City Council, please realize that this extreme high rate increase is going to be a hardship for many. I am a single senior with a very low income. I'm sure this will negatively impact many senior Glendale homeowners in a similar situation.

I put out my **Recycle** about once a month. **Green wastes** 5-6 times a year. And the **Trash** sometimes only 2 times a month if cooler weather permits the odor from being too strong. And I **compost** what is suitable.

I do my best to reduce my waste output. If this proposed high rate is adopted, it will definitely create a hardship for me and for many others. I suggest a lower rate increase, and to look for better ways to reduce the amount of waste produced.

I am **against** this **rate increase** that you currently propose.

To Office of ~~CITY~~ CITY Clerk

2023 JAN -6 AM 10:39

I am opposing the proposal 218 the increase of solid waste.

Ever since you said to not throw away food vegetables residues in trash, my husband and me are putting every possible organic compost in the green bin. even the thinnest apple seeds, the rough ends of the cucumber. etc.

I have this little container in the kitchen to separate them.

My Regular Trash is almost empty. I have nothing in there other than my husband's cigarette butts, tissues we use to blow up our noses, worn out Rags, sponges, things that have no use to other people and are not Recyclable.

this is unfair when we follow all the Rules, the tips you give us and then you slap us by increase!

→ can't

I have No Desire to walk to my  
Recycle bin 2-3 times a day. or  
to my green bin a few times a day.

I Should throw everything in waste  
since I'm paying for it.

Why waste my time, energy and space  
in the kitchen and arguments and  
~~training~~ training my husband about  
this is not waste -- that's green bin.  
Go through all this just to  
conserve Nature -- ?

I was actually hoping to get a  
Discount for doing this if anything  
but not an increase.

Can you believe that what I wrote is from  
my heart, didn't think what am I writing  
just all ~~are~~ pure thought, feelings.

Thank you for your time if you actually  
read this. your Glendale citizen's

Re: Opposition to the Proposed Solid Waste Rate Hikes

I have lived in Glendale since 1972 and am a residential homeowner. This letter will serve as my opposition to the proposed solid waste rate hikes. The increases are way out of line. As we are living on a fixed income these rate hikes will be difficult to pay and will cause a financial hardship. This will be true for many Glendale families.

Property details are below:

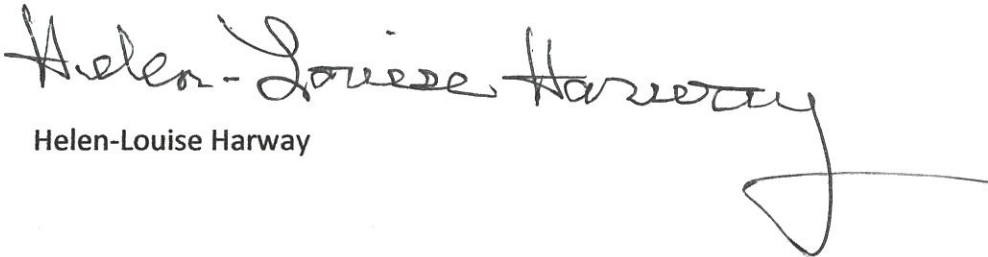

1636 Idlewood Road

Glendale, CA 91202

Tract No: 6664 Lot: 18

Assessor's Parcel Number (APN)/Assessor's ID No: 5629 012 005 22 000

Thank you,

  
Helen-Louise Harway

PROTEST TO STOP INCREASING SANITATION RATES

As a 8 year Glendale Resident it is absurd to know that on top of the high tax rates, high food prices we are now obligated to have to now have to pay an enormous amount of money for a Sanitation increase rate. I'm opposed to this and do not appreciate you trying to gauge residents. I am proud to say that love Glendale and appreciate what the sanitation services do and we are very thankful. However I strongly disagree on this action. PLEASE STOP TAXING our SANITATION.

Sincerely,  
David Nelson

Dear City Council,

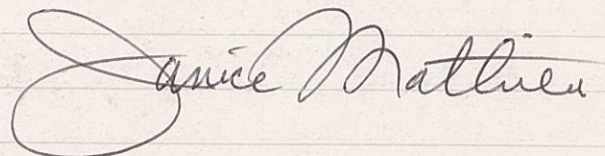

I am the property owner at 429 Glen Aire Drive in Glendale and I am **STRONGLY OPPOSED** to the solid waste increase!! I would be agreeable to a slight incremental increase, but your proposition more than triples the amount by July of this year and quadruples it by July of next year! I'm drowning in all the rate increases everywhere I turn. This seems outrageous.

Please scale it back! What about a 50% increase by year end and another 50% by the end of 2024?

My assessor's ID is 5630 015 044.

I beg you to revise the rate increase plan!

January 3, 2023

Dear Members of the Glendale City Council:

**Subject: THE PROPOSED RATE RESTRUCTURING AND INCREASES OF  
SOLID WASTE RATES ARE EXCESSIVE AND UNFAIR**

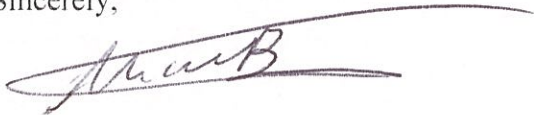

As a resident and property owner in Glendale City I, Anatoliy Bakman, categorically disagree and oppose the proposed rate increase. The proposed rate increases are excessive and oppressive.

A reasonable annual rate increase should not exceed the official inflation rate, which is 8% for 2022.

My neighbors reported to me that they are also surprised and disappointed regarding the extraordinarily high proposed rate increases. I hope the City Council will reconsider the proposal and find a resolution that is more reasonable, fair, and just to its constituents.

My vote is NO to the proposed increases of solid waste rates.

Sincerely,

Anatoliy Bakman  
Glendale Resident

CITY CLERK  
2023 JAN -5 AM 11:55

Dear Glendale City Council,

On October 31, just 1 week away from the November 8 midterm elections, President Biden criticized major oil companies for "war profiteering" and threatened them with a windfall tax.

I find it difficult to not see Glendale's new proposed increased to waste collection for 2023-2024 as anything other than profiteering. The following is regarding the proposed fee increase for the automated Cart Service-Single Family 64- and 96-gallon carts.

The inflation rate for California has been the highest it has been in years sitting around 6-8.2%. Therefore, the proposed increases for the years 2025-2027 seem reasonable and in line with inflation. However, the 185.28%-208.57% increase between 2022 to 2024 is unreasonably high, who's salary is increasing over 200% to justify the increase. I suppose a 25% increase between 2023-2024, though unpalatable, would be tolerable.

America has an ever-increasing elderly population (my parents are among them), the large majority of whom are on fixed incomes. Social security payments are expected to keep up with inflation, so outrageous unjustifiable increases like the ones proposed (2023-2024) will harm many Americans. You may think that it is only a small amount overall, but if all the utilities and life essentials take a similar stance and approach, we will end up with many more Americans in the poor house, or on the streets.

I propose that the fees increase 8% on July 1 every year until 2027.

January 1<sup>st</sup>, 2023

Att.: Glendale City Council.

Subject: Proposed Rate Restructuring & increase of Solid Waste Rates

As residents and property owners of Glendale City, we disagree and absolutely reject your above proposition for the rate increase. **The increase is unacceptable and unreasonable, it is too excessive and UNFAIR.**

**This high proposed rate by the City is un-ordinary, it is very disappointing and surprising.**

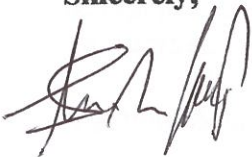

**On another note;** It is not like we're getting the best services on our street. We have to call and beg the city to clean up on windy storms. Our street hit hard when winds are strong, and can result in so much leaves, branches blown and landing everywhere, together with these dry thorny bushes blowing away from the hills and the land fill across onto the street. Last strong wind storm in November 2022, Residents had to clean up the street themselves (since no help came after many call attempts) from these dry thorny bushes because if left alone on the street would be hazard to humans and pets alike.

With the high living prices and cost of living since last year, **WE DO NOT NEED SUCH A HIKE IN RATES.**

**We demand and request that The City re-consider the big raise in the Solid Waste rates and raise only reasonably and fairly.**

**We Vote "NO" to the proposed high increase of Solid Waste Rates.**  
**Thank you for your attention.**

Sincerely,

**Steve and Hannah Farage**

Please be advised I am aware of your plans to raise the trash pickup to a very large amount over the next 5 years and I am OPPOSED to such an increase.

Please allow the record to show my disapproval.

Sincerely,

**STOP THE CITY'S PLAN TO QUADRUPLE YOUR TRASH TAX!**

*Very important. If you have  
any questions,  
please call me  
Connie  
(818) 243-9063*

## Stop the City's Plan to QUADRUPLE YOUR TRASH TAX!

GLENDALE, CA – The cost of sanitation services for single family residences in Glendale will almost QUADRUPLE (358%) over the next 5 years if the city council doesn't hear from you.

***If written protests are filed by a majority of the affected property owners, the proposed solid waste rate increase will not be imposed.***

**Take a minute to fill out and submit your written protest today! Here's how:**

1. State that the property owner or tenant is in opposition to the proposed rate increase.
2. Provide the location of the identified parcel (by Assessor's Parcel Number (APN) and street address), and
3. Include the name and original signature of the property owner or tenant submitting the protest. (If the party signing the protest is not shown on the last equalized assessment roll of Los Angeles County as the owners of the parcel(s), the protest must contain, or be accompanied by written evidence that such party is the owner, or the tenant, of the parcel(s).)

**Mail or Deliver to:** City of Glendale, City Clerk, 613 East Broadway, Room 110, Glendale, California 91206. You may deliver to the City Clerk at this address.

**Important note:** To be valid, a protest must be in writing and received (not postmarked) by the City Clerk prior to the close of the public hearing on January 10, 2023. Oral, telephonic and email protests will not be accepted. Because an original signature is required, emailed, faxed and photocopied protests will not be counted. Oral comments provided at the Public Hearing will not qualify as a formal protest unless accompanied by a written protest.

### **Dates of the Proposed Increase:**

Date of Increase	New Rate as a Percentage of 2022 Rates
2/1/2023	182%
7/1/2023	228%
7/1/2024	285%
7/1/2025	308%
7/1/2026	333%
7/1/2027	358%

January 3, 2023

City of Glendale;

I am writing to protest the proposed new solid waste rate increase. The first year increase in 2023 is more than double of what I am paying now for the 64 gallon cart. From \$11.72 a month to \$29.26 a month. Over the 5 year period the increase is almost 5 times of what I am paying now. From \$11.72 a month to \$57.61 a month. This puts an extreme hardship on all of the residents of Glendale.

I pray that the City of Glendale does the right thing for its Citizens.

Anne L. McDonald

My wife Mila and I have lived in the Verdugo Woodlands in the city of Glendale, CA for over 54 years and we were horrified putting it mildly at the prospect of seeing the City of Glendale assessing a greedy, rapacious, and certainly usurious series of increases in the sanitation rates over the next five years. This is an assault on the most fragile, financially speaking groups headed by the retired sector closely followed by families with the least financial means forcing them to lose their properties .....

You are definitely contributing to a phenomenal inflationary trend that will increase rents, make housing in our city prohibitive or unattainable, and ultimately run families out of the city and/or State.

I would encourage the City to look for less "greedy" and rather more intelligent formats to reduce costs and not literally "print Money" at will by asking taxpayers to cover the City spending extravaganza every time the City Managers and City Council think they need more funding. Do not force taxpayers to speak to you through the Ballot Box!

Thank you for your kind consideration of this most serious matter!

## Ray, Lydia

---

**From:** Ray, Lydia  
**Sent:** Saturday, December 31, 2022 10:53 PM  
**Subject:** City of Glendale proposed rate increases

I, Lydia Ray, property owner at 1306 Randall St.-Glendale, Ca 91201, oppose the extreme increase rates proposed by City of Glendale for trash collection. I do understand that everything but the wage of many hard working residents in this city, state, & country continue to rise moment by moment & often in leaps & bounds, but unless wages increase dramatically then steadily people will not be able to afford to live anywhere in this area unless they live in their vehicle or as part of the growing homeless population. I've worked for 50+ years, 30 as an overworked & underpaid civil servant but I pay my bills & try to pay everything (including college loans & my mortgage) off early. I don't splurge or waste so have saved a bit but don't know what I can give up next to pay such high rates on everything. When I was younger I went a month without eating, only drinking juices & water because I couldn't afford food plus a few other years & up to the present where I eat very little; it was not as bad as expected but it wasn't healthy then & certainly would not be as a senior citizen. People ask "don't you want to retire?" & I say yes I hoped I would at 55 or by 62, then certainly by 64 or 66 but wages didn't keep up & so many things continued to go up so I am not sure I will ever get to retire. I don't want to rent my house & have to live outside. I do want to enjoy my house, neighborhood, & city as a fine, healthy, & cool place to live the rest of my life.

I thought I was moving to Burbank when I got my first Glendale apartment in 1991. I got involved in the community & by 1999, the time I could afford the worst house in my neighborhood after the original owner died & was there 10 days before anyone knew, I decided it was a pretty cool place & I fought hard to get this house. Since then I have been in trouble with the city for having a drought tolerant lawn before they caught on & have fought a few battles with my neighborhood but we did make it a better place to the degree we could. You are lucky to have so many fine residents that want to make the place better for all. I don't understand why that always seems to be such a tough, uphill battle, & over the past few years many must have given up as I know of families of several generations that have moved away because they got too fed up with the inflated costs, lowered quality of life, & lack of concern for those citizens. Times are tough, we are all burned out but it is time to start working with us.

Raise the rates a bit as time goes & offer better & more varied options. What you proposed is too extreme & too high. I generally put about a foot's worth of trash in that bin weekly, green waste gets full those times a year the leaves fall or when winds knock down limbs (including the city trees that you don't clean up) & the recycling bin gets filled about once every other month & that's because non-Ca. crv metals don't pay so pet food cans go there. It is not efficient or nature friendly to place even the smaller bins out & have the big trucks come by every week. Perhaps there could be smaller bins, less frequent pick up, much more involvement with reuse, recycle, composting, etc. Maybe we could work as neighborhoods where people pay for just what they need when they need it by sharing of bins or just order pick up when we fill a bin. There are ways to ease these burdens if we all think out of the box & work together. And please, hire vested employees again, we are so fed up with the contractors destroying bins, driving like they are on a high speed chase, knocking into our walls, etc.

Anyway, I ask you to be more reasonable & resident friendly by coming up with better & affordable ways to deal with the costs of running the city of Glendale. Many of us cannot afford what you proposed & are willing to work with you on this.

thanks

  
Lydia Ray  
1306 Randall St.  
Glendale, Ca. 91201

CITY CLERK

To: Whom it may concern,

And I use this address to you lightly because I don't believe anyone of the Glendale City Council is concerned about me. My name is Steven F Lane and live at 1436 Fairfield St, parcel # 5626-024-005 and am adamantly opposed to the rate increase in my rubbish fees.

My property has been passed down from my Grandfather since 1934. Now that I'm a senior citizen and living alone I will soon be paying what I believe to be an outrageous amount for my trash pick up. As you can see by my receptacles I only place my trash out for pick up when the cans are full. This means I only put my cans in the alley about every 2 months. You're serious? You want to charge me the same amount as the family of 5 that overflows their trash cans weekly?

I don't think this attack on my conscientiousness serves any of us well.

Respectfully

*S Lane*

RE: Letter of Protest to Proposed Changes

To Whom it May Concern:

I hereby protest the proposed solid waste rate increase.

My reasons are:

1. The proposed rates over the next five years are excessive. This is number one.
2. The protest system is cumbersome and not made well known to property owners.
3. Other plans to reduce solid waste such as smaller trash cans should be considered.
4. Community education for reduction in the amount of trash is important.

Glendale is better than this sudden and excessive trash collection rate increase.

Sincerely,

Julie Lister

MarV

The honorable Glendale City Council

Re: Ordinance Relating to Solid Waste Rates

Kelly Beggs 3700 Burritt Way, Glendale CA. 91214  
Is opposed to the proposed solid waste rate increases

My calculation shows a **385%** increase which seems excessive

<b>Current Rate</b>	<b>Proposed Rate</b>
\$18.34	\$65.70 Monthly Rate
	\$4.87 Adjustment Amount
\$18.34	\$70.57 Total Monthly Rate

$70.57/18.34 = 385\%$  Percent Increase

I would like a break down of how this amount will be used for monthly trash collection;

Example: Cost of Labor  
Cost of trash disposal  
Cost of recycle processing  
Etc.

I would also like to see the corresponding monthly trash collection fees from surrounding like size cities for comparison.

I would also like to know what the monthly fee would be if this was contracted out to a private trash collection company.

Respectfully submitted

Kelly Beggs

RE: Solid Waste Rate Hike

To Whom It May Concern:

I am completely opposed to the increase in solid waste rates.

For a homeowner, living alone, I do not think this is justified. I do not take my trash can up the street but once a month or so. This is completely out of line for a single person living in a home. I think, rather, city funds should be managed better and this is a complete rip-off.

My information is:

Lisa Ben Jacob  
3848 Fourth Avenue  
Glendale, CA 91214  
Parcel #: 5604 007 050 22 000

Thank you for your consideration in NOT passing these horrific rate increases.

RE: Proposed Solid Waste/Refuse Rate Increase

My name is Catherine Morrissey and I live at 1550 Allen Avenue (Assessor Parcel Number 5622-013-011). I purchased this home in 1988 and am the owner of record. Please be advised that I am vehemently opposed to the City's proposed refuse rate increase. These proposed increases are especially onerous for Senior Citizens, such as myself, that are living on fixed incomes.

Please consider this written letter as a formal protest to the proposed increases.

Sincerely,

Catherine L. Morrissey

Subject: Opposition to Proposed Solid Waste Rate Increase

Dear Glendale City Clerk:

I'm writing to convey my strong opposition to the proposed rate increase for solid waste disposal. This 80+% increase is simply unacceptable for residents living on constrained budgets and dealing with other inflationary pressures. I would hope your planning teams can revise the waste program with a stronger emphasis on cost reductions.

Thank you for your consideration.

Sincerely,

Dr. Suzie Abajian  
Glendale City Clerk  
City of Glendale  
613 E. Broadway #110  
Glendale, CA 91206

Dear Dr. Abajian,

It has come to my attention that the City of Glendale is proposing a very significant rate increase in the consumer cost for solid waste disposal.

While it may be the case that the City of Glendale's cost of waste disposal has increased, and that these increases will then be reflected in the cost to homeowners, I believe that a more rational and comprehensive solution can be found that will serve to resolve these issues.

It is very rare that my waste bins are full on a weekly basis. On the contrary, it usually requires two or, in some cases, three weeks before the bins are completely full, at which time I move them to the curb for disposal. I have spoken to my neighbors about this and, typically speaking, this is the norm for them, as well.

Therefore, I would suggest that the cost of waste disposal could be immediately reduced if pick up were to occur on a bi-monthly basis. At the same time, this would reduce the carbon emissions from the waste disposal trucks and reduce costs for the fuel, maintenance and repair of these vehicles.

Should a specific homeowner feel that a bi-monthly period would not suffice for their needs, then that homeowner could simply add additional bins. In that way, the bi-monthly protocol could be kept in place while adjustments are made for those whose needs are greater than others.

This comprehensive approach provides for a model program that would benefit all concerned parties.

I oppose the City's current proposed rate increase for solid waste disposal as it would impose a severe burden on many Glendale citizens, while doing nothing to resolve the underlying issues that should be addressed.

I own residential property in the City of Glendale at the following address:

3355 Reta Street  
Glendale, CA 91214

Assessor's Parcel Number (APN): 5602 014 012

Thank you for your consideration.

Re: Protest of Increase of Solid Waste Disposal;

City Clerk and All Members of the Glendale City Council:

This letter is written to protest the proposed increases to the solid waste rates as well as to the proposed rate restructuring. We are vehemently opposed to any such increases especially when one considers the magnitude of the proposed increases set forth in your Notice.

According to my understanding of your rate increase chart for the sixty-four (64) gallon cart pick-up of solid waste for single family residents/homes only, the City proposes to increase the monthly costs from \$11.72 to \$57.61 over a five (5) year span. That is, a monthly increase of \$48.59 over this five (5) year period which is an increase over three hundred ninety-two percent (392%) over the existing or current monthly rate now being charged. These proposed rate increases are for the pick-up of solid waste only and do not include the additional monthly costs for hazardous waste and sewer operating costs which were either conveniently or deliberately not included in the total monthly costs by other City Departments.

In addition to your proposal raising the monthly costs for single family residents/homes for sixty-four (64) gallon carts, the monthly rates for the ninety-six (96) gallon are proposed to increase from \$18.34 to \$65.70. This represents an increase of \$47.36 which is an increase of two hundred fifty-eight percent (258%) over the current or existing monthly rate. So as I understand it, the rates for residents who use a ninety-six (96) gallon cart will increase less than those residents using a sixty-four gallon cart despite the fact that the sixty-four (64) gallon cart contains approximately one-third (1/3) less solid waste than the ninety-six (96) gallon cart.

Further, your proposed monthly rate increase includes an unspecified monthly charge in order to "maintain sufficient cash reserve to provide reliable service . . ." So the City or

Department in charge of solid waste management would like to increase monthly rates to establish a cash reserve despite proposing an increase of three hundred ninety-two percent (392%) or two hundred fifty-eight percent (258%)?

Our above analysis of your proposed monthly solid waste rate increases leads us to only one conclusion, complete and utter mismanagement by either the City Council or the Manager or Heads of whatever Department is in charge of solid waste disposal. This rate issue did not just appear overnight nor did it "sneak up" on the City or the Department responsible for waste disposal. As a consequence, the person or persons responsible should be immediately terminated for incompetence.

Instead of proposing such monthly rate increases over a five (5) year span and given the large proposed amounts of such monthly increases, if you insist on keeping the monthly rate amount increases, consider spreading out such proposed increases over a greater period of time like, for example, fifteen (15) to twenty (20) years. Such increases would likely raise fewer objections as the monthly rate increases would be much smaller.

Further, as an alternative to having to increase the monthly rates at such an alarming amounts, you could propose all residents use the ninety-six gallon (96) cart but solid waste pick-up would be every other week. This could reduce the monthly rate amounts by at least half your proposed increases.

Should you wish to discuss any of the above, please feel free to contact us at the above telephone number or e-mail address.

Very truly yours,

Michael Shimaji

Vicki Shimaji

Robert L. and Ojeni P. Sammis  
1936 Crestshire Dr.  
Glendale, CA 91208  
LA county Assessor's ID 5652-013-014

To the Glendale city council,

As a 40 year resident of Glendale I understand the issues and difficulties that the city council faces and would have supported a reasonable rate increase below 50% however a 175% rate increase is not justifiable. I find the City of Glendale proposed increase of solid waste rates unfair and outrageously high.

I am proposing an alternative solution to increase revenue for the city. Green and recycling collection pick up should be twice a month instead of weekly. I am certain that residents will adjust to the change and support this move instead of the proposed enormous rate hikes for the waste collection.

Sincerely,

Robert L. Sammis

Ojeni P. Sammis

CITY CLERK *nm*  
2022 DEC 21 AM 10:58

Glendale City Council,

I am submitting this letter of protest to oppose the recent notice of "Proposed Rate Restructuring and Increase of Solid Waste". I have been a single family homeowner in Glendale since 2009 and I understand the city's need to make an increase in the cost of waste collection. However, I am a single person living in a small home (728 sq. feet) and the amount of waste that I produce weekly (brown, grey and green bin) is less than 10 lbs. The proposed rate of \$11.72 currently, to \$29.26 in February and to \$36.58 by this time next year is completely unreasonable for someone of my meagre proportion in waste production. I understand that in an immensely bureaucratic municipal structure of city government these particulars are difficult to provide for, but Glendale has made multiple efforts to manage residential water consumption based on individual resident households, yet no such efforts are made for solid waste collection. I counter this proposal with a call for a more equitable approach to waste collection.

Thank you for your consideration,  
Sean Kenny  
728 Luton Dr.

19 Dec 2022 page 1/1

Glendale City Council  
613 E. Broadway, Glendale, CA 91206  
Dear Council:

This letter is to officially object to, oppose, and protest the proposed changes to solid waste collection charges and rate restructuring effective 1 February 2023, and beyond; by the above and below named property owners. (Cecilia A. and E. N. Friesen)

Assessor's Property ID No.:  
5649 035 010 22 000

Owner of Record & Mailing Address:  
FRIESEN, E. NICK JR. CO TR  
FRIESEN FAMILY TRUST  
1111 OLD PHILLIPS ROAD  
GLENDALE, CA 91207-1111

Stipulations:

It is essential that the City of Glendale, recover the actual cost of service, in an equitable and timely manner.

It is essential that such 'cost of service analysis' (COSA) be conducted and communicated to the public in an accurate and timely manner.

It is essential to recognize and adjust to the increase in costs and inflation over recent past periods; along with the complexities and complications of effective waste disposal, which has been too long evaded and/or ignored by past Councils and Officials.

Arguments against this particular change/increase in rates, and additional questions:  
The arguments for making a significant increase in rates over an extended period have only been partially communicated to the public. One has to be an avid follower of "City Politics" to be aware of what is actually happening and the reasons thereof.

Which alternative or options exist? Some must exist; what are they? Which have been tried and how effective are/were they? This proposal seems to be a "Take it as is"; or "Just take it and like it". ["Do it as we say, or "Just Do It".] The process of protest seems both too prescriptive and hurried. It's stated that without a written protest in the proscribed form, no oral or non-property owner/"Stakeholders" inputs are desired.

Who all is involved and in what current and expected capacities? (City Employees, City Officers, Contractors, other 'Stakeholders', et al). What duties and roles have they played and are expected to play over the term of the proposed increases? If Trash

**re: Glendale Public Works Proposal to Increase Rates for Trash Collection**

19 Dec 2022

page 2/2

Services are contracted out in the future, who gets laid off to 'save money', who profits, what is the relationship between savings and income; "Benefits and Costs" as estimated, etc. What is it worth, a net gain/(loss) or is it to be a "Breakeven" set of transactions?) How are "Laid off Employees" to be treated in the event of additional contractors being employed? What if any impact will there be on the City's obligations to Cal-Pers?

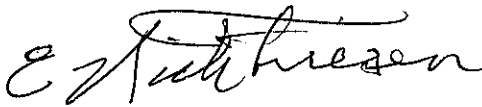

[The history of "Trash Hauling/Disposal Contracts" ("Deals") in many cities of the USA over past decades has been one of Collusion, Corruption, and Criminality". What 'safeguards' for the future of Glendale, if any, are contained in this proposal?]

Money is fungible. Will proceeds of these changes go into a dedicated Waste Disposal Fund, or the "General Fund". Who has the Authority to decide or divert funds, when?

How will 'Payee' protests received be judged? On their quality or quantity? Will such a 'decision' be final, or is it subject to appeal and/or revision? Or will it depend on which group or persons that protest or those who do not will prevail?

My objections are with the 'draconian process of protest' that you require, the paucity of those involved complete and full communications disclosure, and brief period for disclosures and discussion of alternatives. Options undisclosed in this notice.

In short, an immediate initial increase of either 82% or 150%, depending on cart/container size is excessive! Also, followed by annual 25% increases annually for two years, with additional 8% increase the final two years (using the "Single Family Automated Cart Service" portion of the "Rate Adjustment Table"); or 2.58 times to 3.92 times, currently. I object to both the 'processes' used and the 'results obtained'.

E. N. Friesen

PS:

A couple of years ago new trash trucks were introduced into service. These trucks use a chain drive to hoist the cart over/into the truck proper. So far so good, but then the process reverses and the chain drive slams the cart to the pavement. Usually this causes the cart to both tip over and/or top to 'pop' open. It blocks passage at street side, allows for (in the event of 'hoped for' rain) animals, water, other trash to accumulate in the cart. Based on the noise made in this process, it seems that this will also degrade the lifespan of these carts. To my non-trash professional senses the older trucks did a better job.

To Whom It May Concern,

December 7, 2022

I'm writing this letter to express my objection/protest to the solid waste rate increase proposal. The rate hike is very high and set to raise a lot over the next few years. Such a drastic hike in price is unfair.

I also do not understand why new trash cans were needed and delivered to us all. Feels like a waste of money. Our cans were fine.

RE: Trash rate increases

The City of Glendale City Clerk  
613 E. Broadway, Room 110  
Glendale, CA 91206

To Whom It May Concern:

The exorbitant increase in fees for trash pick up are ridiculous.

I have the smaller trash container: brown barrel and seldom have more than ten percent of the barrel full.

I've asked to have this service rescinded, opting to dispose of the small amounts of trash I generate and have been told I am required to have the service.

I have no green barrel. I have no recycle barrel.

If this hike in these fees is implemented, it will create a severe hardship on my budget as a single retired person.

Please find another way to fund this service.

Sincerely,  
Michael Sheehan  
Adams Hill

**Re: Protest Proposition 218**

Dear City Clerk,

My name is Vic Abajian, property owner and resident of 1635 Heather Ridge Dr., Glendale CA 91207, and I am writing this letter in **protest of Proposition 218**: City of Glendale Refuse Rates Proposal.

We understand that there is an increase in inflation and costs of service to haul solid waste away. We also understand that rate adjustments are necessary to continue quality service. However, according to Proposition 218, the new solid waste collection rate for a single-family customer standard 96-gallon cart will have an average increase of 29.4% per year for the next 5 years. This is absurd. This is a draconian increase in rates during unprecedented times and especially for senior citizens on fixed incomes.

The City not imposing an increase in the last 12 years is of no fault of the city's residents. Why did the City wait 12 years to propose such a harsh increase? Why didn't the City increase the rates gradually in anticipation of increased costs? Hitting residents with such a rate increase is bad policy by the City and unfortunately, I would say this proposal could be regarded as a **"lack of due diligence"** from City officials and its administration.

A moderate, annual rate increase of 3-6% for the next 5 years would be considered a reasonable and fair rate increase and would likely not monetarily impact and burden the residents and homeowners of the City of Glendale. Thus, **I protest the proposed rate increases** and suggest you reconsider a more modest, reasonable, and fair annual increase over the coming years.

Thank you.

Sincerely,

Vic Abajian  
Property Owner/Resident

Dear Sir/Madam:

I am writing to strongly protest the proposed rate restructuring and increase of solid waste rates to be discussed at the January 10, 2023, meeting of the Glendale City Council. The 150% proposed increase is totally unreasonable and unrealistic. I have been a resident of Glendale since 1958. My current address is 3536 Rosemary Avenue, Glendale, 91208. The Assessor's ID Number is 5615 004 009.

The Glendale City Council should reconsider this proposal.

Respectfully,

RE: Protest of proposed rate restructuring and increase of solid waste rates

Dear City of Glendale:

As property owners (see address above), we are writing to protest the proposed rate restructuring and increase of solid waste rates in accordance with the rules set forth in the notice sent to all property owners in the City of Glendale.

While we recognize that there may be a need for a solid waste rate increase, the proposed rate hikes are too steep, too frequent, and too burdensome for homeowners — a 212% increase for a 64-gallon cart and a 127% increase for a 96-gallon cart in the first year alone, with further increases through 2027. These increases will create undue hardship for many of us already struggling in these difficult times.

Further, the enclosed Rate Change FAQ on the website of the Department of Public Works' Integrated Waste Management Division characterizes the new rates as in the lower half when compared to selected nearby cities. But that description only takes the February 2023 increase into account. The July 2023 increase would catapult Glendale's rates into the top four of the 14 jurisdictions shown on the FAQ's graph, assuming the other cities' rates are stable. To the extent other jurisdictions impose periodic rate increases, it would be most helpful if you would provide property owners with more complete information not only about current rates but the anticipated rates through 2027 in the other neighboring jurisdictions.

We respectfully ask the City of Glendale to revisit the solid waste cost-of-service analysis and propose alternate solutions that help keep Glendale homeowners' costs down.

Very truly yours,

Thomas Halpern

Lucy Wang Halpern

Enclosure

## Rate Change FAQ

Filter:

[Expand/Contract Questions and Answers](#)

**Can I downsize my current refuse service to save money?**

If you are able to consistently recycle more items, you may be able to reduce your garbage cart size to a 64 gallon cart. Contact our office directly at 818-548-3916 to make this change. However, you must be sure that your garbage cart lid closes fully for collection.

**Can I share a cart with my neighbor to save on refuse and recycling costs?**

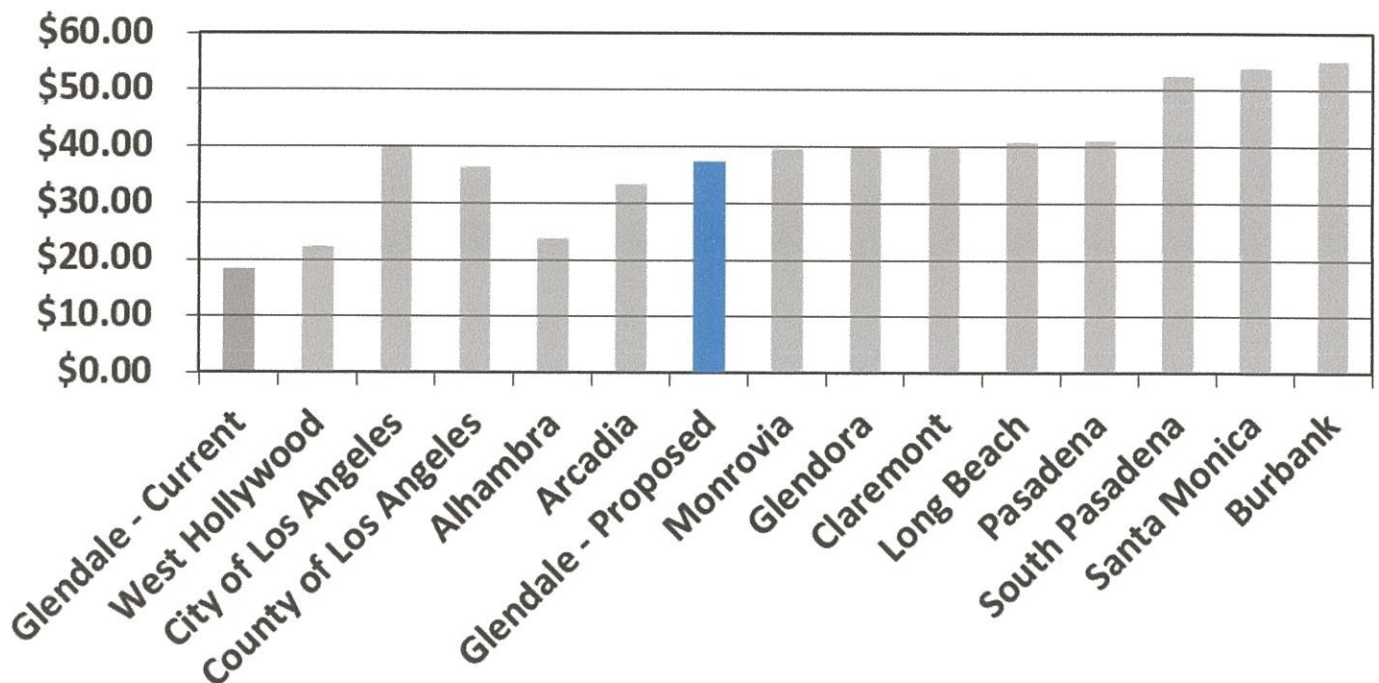

No. Shared service is not available for detached Single-Family properties. (Chapter 8.44 Refuse, Yard Trimmings, and Recyclable Material Collection and Disposal).

**Doesn't this rate change require a two-thirds vote under Proposition 26?**

The proposed residential refuse and recycling services rates are not subject to Proposition 26 because these are charges imposed for refuse and recycling services provided directly to the properties. Services are not provided to those not charged and the charges do not exceed the reasonable cost to provide services.

**How do Glendale's new rates compare to other local cities?**

The City of Glendale's new rates will be in the lower half when compared to surrounding cities. Glendale's new refuse rate that can become effective on February 1, 2023 will be considered moderate as demonstrated below.

**How do I determine my Assessor's Parcel Number (APN)?**

City of Glendale.

Hello -

I am in opposition to the  
proposed Solid rate increase.

My name and address are  
as follows:

Andrew Barran  
1348 Imperial Drive  
Glendale, CA 91207  
818 427-4080

Andrew Barran

### HOW TO FIND OUT MORE DETAILS:

You can get more detailed information by contacting the Public Works Department- Integrated Waste Management Division at (818) 548-3916 or on our website: [www.glendaleca.gov/residential](http://www.glendaleca.gov/residential)

### HOW TO PROTEST THE PROPOSED CHANGE:

Glendale City Council will consider the proposed solid waste rate increase along with the revised Ordinance Relating to Solid Waste Rates, at a public hearing on Tuesday, January 10, 2023, at 6:00 p.m., at the City of Glendale Council Chambers, 613 E. Broadway, Second Floor, Glendale, California 91206.

If you are the owner of record of a parcel(s) subject to the proposed solid waste rates or any tenant directly responsible for the payment of solid waste services provided by the City, you may submit a written protest against the proposed solid waste rate increase. If written protests are filed by a majority of the affected property owners, the proposed solid waste rate increase will not be imposed.

Any written protest must:

1. State that the property owner or tenant is in opposition to the proposed rate increases;
2. Provide the location of the identified parcel (by Assessor's Parcel Number (APN) or street address); and
3. Include the name and original signature of the property owner or tenant submitting the protest. If the party signing the protest is not shown on the last equalized assessment roll of Los Angeles County as the owners of the parcel(s), the protest must contain, or be accompanied by, written evidence that such party is the owner, or tenant, of the parcel(s).

Written protests regarding the proposed new solid waste rate increase may be mailed to: City of Glendale, City Clerk, 613 E. Broadway, Room 110, Glendale, California 91206. Written protests may also be personally delivered to the City Clerk at this address. To be valid, a protest must be in writing and received (not postmarked) by the City Clerk prior to the close of the Public Hearing on January 10, 2023. Oral, telephonic and e-mail protests will not be accepted. Because an original signature is required, emailed, faxed and photocopied protests will not be counted. Oral comments provided at the Public Hearing will not qualify as a formal protest unless accompanied by a written protest.

This letter is available in its entirety in (English/Armenian/Spanish) on the City of Glendale's website: [www.glendaleca.gov/residential](http://www.glendaleca.gov/residential).

For questions regarding this Notice of Public Hearing, please contact City of Glendale Public Works – Integrated Waste Management Division at (818) 548-3916.

*This notice is being sent out to property owners in the City of Glendale listed in the Los Angeles County Assessor's database as well as to all individuals who are solid waste customer account holders. As a result, you may receive this notice in duplicate. We apologize for any inconvenience this may cause.*

REF: Proposed Rate Restructuring and Increase of Solid Waste Rates

To Whom it may concern:

We received the proposed solid waste rate increases. We understand the current inflationary period, though a 200% proposed rate increase by July 2024, then yearly 8% increases after that, is just too much to bare. Especially, considering we are just a family of 3. Meaning, we hardly ever have full cans, so usually skip placing bins out most weeks.

Please City Council, do not consider this rate increase. Vote it down!

Sincerely,

Greg Gaglio

Re: Protest of proposed new solid waste rate increase

To whom it may concern,

Brett Blumstein and Tiffany Lo Blumstein are the owners of the property located at 954 E Dryden Street, Glendale, CA 91207. We are writing this letter to protest the new solid waste rate increase.

Looking at the rate adjustment table we were sent, the rates for 96-gallon bins are set to increase 82% in the first year, then 25% the next, then 25% the year after and finally three more years of 8% increases. The reason given for this incredible rate increase is that the rates have not increased in over 12 years (since 2010). However, looking closely at this, it isn't logical that your proposed increases should be so high.

A quick google search shows that inflation averaged 2.17% per year between 2010 and 2022 for a total inflation amount of 29.46%. However, you are proposing that the FIRST year increase is 82% (and even higher for the 64-gallon bins) before having further increases every year far ahead of expected inflation. While we can understand why an increase would be needed after twelve years of keeping the rates stable, the amount proposed is egregious, especially considering how many individuals are hurting financially due to the pandemic.

We sincerely hope you reconsider such a large increase.

Very truly yours,

---

Brett E. Blumstein

Re: Opposition to the Proposed Rate Increase

Dear Sir/Madam,

We, Robin C. Libby & Soledad W. Yong, property owners of 994 Calle La Primavera, Glendale CA 91208 are, hereby, in opposition to the proposed solid waste rate increases.

These proposed rate increases, as outlined, in your Notice of Proposed Rate Restructuring And Increase of Solid Waste Rates is believed to be excessive and out of alignment with reasonableness especially given our current ultra high tax rates.

Please take this plea seriously, as we and our neighbors vehemently oppose your obscene rate increase proposal.

Thank you,

Robin C. Libby

10/22/2022

Dear Members of the Glendale City Council or Their Representative,

I write to express my **opposition to the proposed rate increases for solid waste collection** in our city. I am sympathetic to the increasing costs of municipal services such as waste collection and disposal, however the proposed one-year 82% increase and 3-year 132% increase is far too drastic for a household like mine to absorb without significant changes to our financial plans. I understand that there has not been a rate increase in 12 years but that does not excuse this heavy-handed, immediate hike. Instead it speaks to the inability of those planning the finances for this service to foresee the challenges ahead. As a result, I ask that you entertain more gradual rate increases over a longer period, as well as exploring alternative possibilities for cutting future costs.

Thank you for your time and attention,

Firefighter Specialist Jay M. Marietta

Glendale Trash Rate Protest 2022/2023  
1061 Linden Ave, Glendale CA 91201

To Whom it may concern,

I am writing to contest the rate increases to trash services for single family residences (Proposition 218). I have read the entirety of the notice to raise cost and my opposition to the proposed rate increases are as follows:

-A 150% increase in less than a fiscal year's notice is not sufficient time for homeowners or single-family home-renters to plan for such an increase. This comes at a time of economic inflation, where other city utility services have increased cost as well.

-It is noted that service rate increase has not been adjusted in 12 years. However, it is irresponsible to hold residents of Glendale financially responsible for the failure of the City of Glendale to adjust costs upward to meet the market average of \$40 per month in similar municipalities in a single adjustment. You've had 12 years to plan for rate increases. This should have been an amortized or a compression adjustment along the way, not a single 150% adjustment plus additional 8% adjustments annually thereafter. It is important to meet market cost to get appropriate vendors and labor to work with the city, however, this rate adjustment is jarring and should meet a stair-step approach like other municipalities have done.

-The closing of Scholl Canyon Landfill should not be passed along to residents. There should have been adequate planning for waste disposal well ahead of its scheduled closing. Do the Golf Course fees not allow for additional funding to place waste elsewhere? It seems like you've allowed someone to profit off this site and not looked at what is best served for residents.

-The addition of CA SB 1383 should not be a major change to organic waste disposal since we have had 'green bins', or yard waste for more than a decade. This compost mandate should have been communicated to residents in a way that allowed for Glendale residents to utilize their current green bins or yard waste bins accordingly. This is not a cost we should bear as this was a service we already paid for. Edible food set to waste cannot be recovered due to cross contamination, so the question will be asked; are you supplying yet another bin to set aside recoverable food items? Likely not as it is not outlined in this increase of rate restructure. That listing of cost is a farse. Do not mislead.

**Proposals**

-Set and enforce a strict fine for multi-unit properties that do not call for large trash disposal services of items discarded NOT in a bin. A fine of \$1000 per occurrence for any waste left on curbside or alley-way areas should create a decent surplus of funds to the waste service department. More times than not, we see apartments and rent houses with large trash items in front of the property for weeks-on-end. Let's close that loop and fine those responsible for the properties. Glendale is full of apartments and multi-unit properties that create waste and burden to the Waste Management dept and are never held accountable. These services should be charged to multi-unit complexes and NOT single-family homes. I do understand apartments hold more socio-economic diverse and lower income residents. However, landlords and property owners should be in control of their resident's waste. That is a fee easily passed on to property owners and only residents that ignore appropriate methods and systems to dispose of waste properly.

-An 8% increase year-over-year would make sense. It would be a folly to assume costs 12 years ago make sense today. However, you did the services in 2020, 2021 and 2022 while operating costs inflated without any adjustments or mention until now. We've seen all US economic inflation trend toward or beyond 8%. That percentage would be appropriate. 150% in a single fiscal quarter is extreme. Let's shoot for 8% y/y.

**Conclusion**

There is a way to offset cost, increase budget and not put burden on single family homes. I contest this proposal and hope the City Council will try a bit harder to find a plan that works.

That is a fee easily passed on to property owners and only residents that ignore appropriate methods and systems to dispose of waste properly.

-An 8% increase year-over-year would make sense. It would be a folly to assume costs 12 years ago make sense today. However, you did the services in 2020, 2021 and 2022 while operating costs inflated without any adjustments or mention until now. We've seen all US economic inflation trend toward or beyond 8%. That percentage would be appropriate. 150% in a single fiscal quarter is extreme. Let's shoot for 8% y/y.

**Conclusion**

There is a way to offset cost, increase budget and not put burden on single family homes. I contest this proposal and hope the City Council will try a bit harder to find a plan that works.

Glendale Trash Rate Protest 2022/2023  
1061 Linden Ave, Glendale CA 91201

*Mark*

CITY CLERK

To Whom it may concern,

I am writing to contest the rate increases to trash services for single family residences (Proposition 218). I have read the entirety of the notice to raise cost and my opposition to the proposed rate increases are as follows:

-A 150% increase in less than a fiscal year's notice is not sufficient time for homeowners or single-family home-renters to plan for such an increase. This comes at a time of economic inflation, where other city utility services have increased cost as well.

-It is noted that service rate increase has not been adjusted in 12 years. However, it is irresponsible to hold residents of Glendale financially responsible for the failure of the City of Glendale to adjust costs upward to meet the market average of \$40 per month in similar municipalities in a single adjustment. You've had 12 years to plan for rate increases. This should have been an amortized or a compression adjustment along the way, not a single 150% adjustment plus additional 8% adjustments annually thereafter. It is important to meet market cost to get appropriate vendors and labor to work with the city, however, this rate adjustment is jarring and should meet a stair-step approach like other municipalities have done.

-The closing of Scholl Canyon Landfill should not be passed along to residents. There should have been adequate planning for waste disposal well ahead of its scheduled closing. Do the Golf Course fees not allow for additional funding to place waste elsewhere? It seems like you've allowed someone to profit off this site and not looked at what is best served for residents.

-The addition of CA SB 1383 should not be a major change to organic waste disposal since we have had 'green bins', or yard waste for more than a decade. This compost mandate should have been communicated to residents in a way that allowed for Glendale residents to utilize their current green bins or yard waste bins accordingly. This is not a cost we should bear as this was a service we already paid for. Edible food set to waste cannot be recovered due to cross contamination, so the question will be asked; are you supplying yet another bin to set aside recoverable food items? Likely not as it is not outlined in this increase of rate restructure. That listing of cost is a farse. Do not mislead.

**Proposals**

-Set and enforce a strict fine for multi-unit properties that do not call for large trash disposal services of items discarded NOT in a bin. A fine of \$1000 per occurrence for any waste left on curbside or alley-way areas should create a decent surplus of funds to the waste service department. More times than not, we see apartments and rent houses with large trash items in front of the property for weeks-on-end. Let's close that loop and fine those responsible for the properties. Glendale is full of apartments and multi-unit properties that create waste and burden to the Waste Management dept and are never held accountable. These services should be charged to multi-unit complexes and NOT single-family homes. I do understand apartments hold more socio-economic diverse and lower income residents. However, landlords and property owners should be in control of their resident's waste. That is a fee easily passed on to property owners and only residents that ignore appropriate methods and systems to dispose of waste properly.

-An 8% increase year-over-year would make sense. It would be a folly to assume costs 12 years ago make sense today. However, you did the services in 2020, 2021 and 2022 while operating costs inflated without any adjustments or mention until now. We've seen all US economic inflation trend toward or beyond 8%. That percentage would be appropriate. 150% in a single fiscal quarter is extreme. Let's shoot for 8% y/y.

**Conclusion**

There is a way to offset cost, increase budget and not put burden on single family homes. I contest this proposal and hope the City Council will try a bit harder to find a plan that works.

RE: Notice of Proposed Rate Restructuring & Increase of Solid Waste Rates

Dear City Clerk:

As property owners of 1018 Marengo Dr. in Glendale, we vehemently oppose the proposed rate increase. We are deeply dismayed that the City of Glendale would even consider imposing an exorbitant 150% increase to take effect in February 2023 and, to add insult to injury, propose additional rate increases of 25% and 8% for July 2023 to July 2027.

Glendale taxpayers are already struggling to cope with a national inflation rate that has increased by over 8%, skyrocketing gasoline prices, and significant – nearly unaffordable – cost increases for an array of grocery items. Thousands of Glendaleans are retired seniors living on a fixed income who will be hit particularly hard by these unconscionable cost increases.

We fervently hope that enough written protests are filed by a majority of property owners so that the proposed solid waste increase will not be imposed.

Sincerely,

  
Jean A. Stapleton

CITY CLERK  
2022 NOV 14 AM 10:41 10/22/2022

Dear Members of the Glendale City Council or Their Representative,

I write to express my **opposition to the proposed rate increases for solid waste collection** in our city. I am sympathetic to the increasing costs of municipal services such as waste collection and disposal, however the proposed one-year 82% increase and 3-year 132% increase is far too drastic for a household like mine to absorb without significant changes to our financial plans. I understand that there has not been a rate increase in 12 years but that does not excuse this heavy-handed, immediate hike. Instead it speaks to the inability of those planning the finances for this service to foresee the challenges ahead. As a result, I ask that you entertain more gradual rate increases over a longer period, as well as exploring alternative possibilities for cutting future costs.

Thank you for your time and attention,

Amy T. Marietta

RE: Protest against the way that 64 gallon waste bin customers rates are being raised in contrast to the 92 gallon waste bin customers. (single family customers)

To Whom It May Concern:

We've lived in our 1100 sq. foot home here in Glendale for over 35 years and have always had 64 gallon containers since it is only myself and my husband that live at this address. Your proposed/ rate hikes affect us disproportionately as to the 92 gallon bin homes. Our trash is 66% less in volume and we should only pay 66% of the price. Right now what we pay is \$11.72 vs \$18.34 for the 92 gallon bins. What we pay is 63.9% of what the homes with bigger trash cans pay and we believe that percentage difference should remain the same.

If homes with bigger trash cans will be paying 82% more in February of 2023, we should only pay 82% more, this would be \$21.33, not \$29.26, which is the proposed raise and then raised the same percentage as the 92 gallon homes from then on. We put less trash in the system and yet, we are penalized, and the homes that put more trash in the dump are rewarded. That seems a warped system that rewards waste. It is particularly harsh for us because we don't have a recycling bin since we have no space for it in our hillside home on Adams Hill.

I hope you will reconsider the way you've structured the raises to reflect a more fair playing field that encourages less waste and not more. It should also not penalize smaller home owners since we leave less of a carbon footprint than those who have bigger homes.

Sincerely,

Re: Proposed Rate Increase of Residential Solid Waste Service

Dear City Clerk:

We have received the notice regarding the above referenced rate increase.

We are writing to oppose the increase.

Actually, we can well understand the need for a rate increase. It is somewhat unbelievable that in the past twelve years a rate increase has not been proposed and implemented. However, we certainly feel that the increase being proposed is excessive. Therefore, we oppose what is being proposed.

Since we have always had good trash service provided by the City, we would be agreeable to a more modest rate increase. Modest to us would be sixty (60) percent increase effective February 1, 2023 followed by a three (3) percent annual increase starting February 1, 2024 and an annual three (3) percent increase thereafter.

We trust that these proposals are taken into consideration.

Sincerely yours,

As owners of 410, 408, 408 ½ West Lexington Drive, Glendale, CA 91203, we are protesting the proposed rate increases for the SOLID WASTE BILL for weekly collection.

The rate of increase is so drastic! Almost double the first year. I have tenants in these units that will find this bill challenging to pay. 5 years of steady increases is way too much—way above the cost of inflation.

**WHY SO MUCH? YOUR PAMPHLET DIDN'T EXPLAIN WHY**

Please explain to us the reasoning (or math) behind these 5 year increases. So far none has been provided.

Awaiting a response,

Vazgen and Camette Sarkisian

RE: Notice of Proposed Rate Restructuring And Increase of Solid Waste Rates

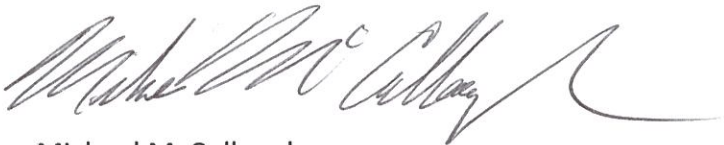

Dear City Clerk:

I am the property owner at the above address and am writing to express my opposition to the above referenced proposed rate restructuring and increase of solid waste rates.

I can appreciate that a rate increase may be necessary, but the current proposal is not reasonable for single family accounts. I ask that you reconsider a rate increase that is more in line with current inflation or escalation rates. I don't understand why the City did not keep rates in line with increasing costs over the previous 12 years, but it hardly seems fair to now wake up and try to get current within a one to three year period.

Thank you for reconsideration.

Sincerely,

Michael McCullough

**City Clerk**

City of Glendale  
613 E Broadway Room 110  
Glendale, CA 91206

Glendale City Council,

This letter is in protest of the proposed solid waste management rate hikes for the City of Glendale. Aside from the fact that the increases are totally out of line even accounting for the rate of inflation and are certainly not representative of any cost of living adjustments that seniors on fixed incomes can expect, a major point seems to have been missed.

Despite the fact that two of the stated reasons for requiring an adjustment are the implementation of SB 1383 and the increased diversion costs associated with closing Scholl Canyon, the proposed rate structure increases the monthly cost of the 64 gallon cart by 150%. This 68% more than the increase for the larger 96 gallon cart. It appears that the residents doing the most to keep waste out of the landfill are absorbing a much higher rate increase. This seems to be contrary to the intent of SB 1383 and reducing waste diversion to landfills..

I would urge the City Council to reject the proposed rate restructuring. The proposal is not reflective of inflation and totally misses the point that we should provide rate structures which encourage reduction of waste to landfills and penalize those that are doing the most to reduce their flow..

Sincerely,

Allen L Frame

Re: Restructuring and Increase of Solid Waste Rates

Dear Sir or Madam,

As a homeowner, I oppose the proposed Glendale City changes in rate structures for solid waste handling, as listed in the Official Notice recently sent to residents. This Notice outlines changes to take place beginning, January 2023 and continuing through 2027.

The document does not appear to include substantive justification for the proposed changes and rate increases included in the Notice. Inflation is a factor, but average total inflation is 32% for the period 2010 to 2022, which alone does not seem to justify a 350-500% increase in waste handling rates.

While increased costs associated with handling of waste are likely occurring, there does not appear to be evidence provided to support or quantify this issue. If new infrastructure or contracts are required to process the waste streams, shouldn't this be handled through the standard procurement process for capital improvements, rather than a rate increase?

While mentioning SB 1383, the Notice does not appear to include information on all of the actual waste streams involved. Should this include a discussion of possible savings in handling costs, brought about by customer changes in usage? My personal waste stream has been reduced by at least 40% since 2010. This is due to a reduction in yard waste created, by replacing lawns and plants with sustainable foliage, along with buying products incorporating packaging that is more easily recycled.

Another issue that appears arbitrary, is the proposed disproportionate increase in cost for the smaller refuse bins. The existing rate structure has the smaller bin at 64% of the cost for a larger bin. This makes sense, since the bin sizes are roughly; 100-gallon for large, and 64-gallon for small. I would not expect a bin with 64% capacity of the larger bin, to be 88% of cost, as proposed.

Thank you for your consideration in this matter.

Concerned Homeowner

Dear Sir/Ma'am,

I am writing in opposition of the proposed rate increase to the city's refuse services. This drastic and rapid increase in fees puts an onerous burden on current homeowners. The argument that fees have not increased to keep pace with costs in the twelve prior years, short of being convincing, is a testament to the fact that the city has been short-sighted and ineffective at handling its budget. Any future fee increases need to be moderate, affording residents an opportunity to adjust without undue hardship.

Sincerely yours,

To Whom It May Concern,

I am writing to state my extreme opposition to the proposed rate increases restructuring and increase of solid waste rates.

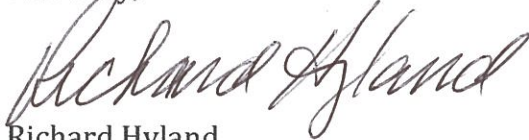

This is due to:

(1) the lack of transparency as it relates to the cost of service analysis. The council and GWP could cook up any number they like to residents and business owners. An independent accounting firm should be hired to look at the books and if necessary produce a reasonable cost estimate.

(2) the EXHORBITANT rate increase being proposed. 150% in the first year is obscene in itself but that's not even where it ends.

California politicians and their policies are driving citizens out of the state with these sorts of actions.

Sincerely,

Dear Council:

I, Nathan Martin, as the owner of the property located at 2944 Manhattan Ave., Glendale, CA 91214, oppose the proposed rate restructuring and increase for solid waste collection, as described in the Notice of Public Hearing. In particular, the differentiated rate increases between the 64-gallon and 96-gallon carts is unacceptable due to both the disparate initial percentage increase (150% vs. 82%) and ultimate resulting differentiation of ~12% between the 64-gallon and 96 gallon, which was historically ~36%. Citizens who have created less waste historically should not be disincentivized by shouldering a larger increase than those who have created more solid waste, and those who continue to create more solid waste should pay much more per gallon, not less (which is proposed), than those who create less solid waste.

Respectfully,

Nathan T. Martin

October 27, 2022

Dear City of Glendale:

I oppose your five-year proposed solid waste rate increases. I understand the need to raise rates, but the amount of the increases would be a tremendous hardship for many homeowners, including me. At the end of the five-year period, the increase for me would amount to 50 times the current rate!

I ask that the city do more to research cost cutting procedures so that the rate increases are more reasonable.

Sincerely,

Fay Dea

To Whom It May Concern:

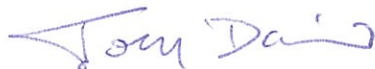

I am writing to protest the proposed solid waste rate increases. Putting into effect a 150% increase in an economy that is already struggling because of the Covid-19 pandemic is absurd.

An increase so incredibly high is way out of line. I feel it is a money grab against the residents of this city to reimburse yourself for the replacement of all the trash cans that we never asked to be replaced. There was no need to replace our existing cans with something new and the quality of solid waste pickup is no different than before with these new cans.

Don't put your bad judgement and waste of money out on the citizens of Glendale. Also, for you to require everyone to write in physically is absolutely ridiculous as well. You did that because you know most people won't take the time to write so you can just do whatever you want within the city.

This is an embarrassment to the city and the residents. Maybe it's time to move out of this city and go somewhere that we are respected as we should be.

Thank you,

Tom Darin

My name is Barbara Illuminate & I live at  
3425 Sierra Glen Rd, 91208.

I strongly oppose the rate increase for  
collection of solid waste.

By Feb. 1, 2023 you propose a rate increase  
of almost 3 times of what it is now. By 2027,  
it would increase over 5 times the present cost.

Inflation is going through the roof and  
you want to put more burden on single family  
residential customers especially on those, like  
myself, who live on a fixed income.

Please do not increase the solid waste rates!!

Thank you for your consideration in this matter.

To: City of Glendale  
City Clerk

Having recently received the notice concerning rate increases for trash pickup, I would like to formally submit a protest over said increases. To have these proposals made during a recession is bad enough, but to almost double the rates for next year, and within four years almost quadruple the rates is unconscionable.

Had someone been managing these costs over time, smaller increase could have been made that would have been more acceptable. If these costs are tied to the increase in fuel costs, then allowances must be made to lower them when fuel prices return to normal pricing.

Until then, I strongly disagree with these planned increases. My home is located at 1510 Raymond Ave. 91201. The Tract Number is 12001, Lot 15.

To Whom It May Concern:

**We are writing to protest the proposed solid waste rate hikes.** We have been living in our current single-family home, which we rent, for 6 years. We are foster adoptive parents with three children adopted from foster care.

We initially chose Glendale because of the excellent school system as well as the livability of the city itself. And now we are finding ourselves being priced out of what used to be a reasonable place to live.

Like many, we have had a rough few years due to the pandemic. One of us lost our jobs, turning us into a single-income home with three special-needs children to support. Over the past few years, due to food and supply shortages, the costs of basic needs like food and clothes have gone up substantially. Our rent increased substantially this year. And now the City of Glendale wants to increase our solid waste fees by 82% and 150% in 2023, with a slowly tapering continued increase over the next several years.

While this rate increase may seem small to some, when you are trying to support three special needs kids, this is a HUGE increase. The City has provided us with 1 large and 1 small trash bin. We only use one of those each week and only fill it 1/3 of the way up. We called and asked to have one taken off of our account and were told that was not an option. While we do use our yard waste bin to capacity each week, our large recycle bin is typically only half-full. So even though we are forced to have two trash containers and don't use much of either the recycle or trash containers, we will be forced to pay more. This seems unreasonable and unfair.

**We hope that the City Council will reconsider its rate increase.** Maybe a smaller amount initially – say 25% - would be more palatable. And we hope also that the City reconsiders its mandatory bin size. We have worked hard to reduce the amount of trash we produce. There should be some incentive for that, as well.

Thank you for your consideration.

*Proposed Rate Restructuring and Increase of Solid Waste Rates*

Dear City Clerk,

*As homeowners and occupiers of a single family residence in Glendale, we very recently received a Notice of Public Hearing for a Proposed Rate Restructuring and Increase of Solid Waste Rates. According to the notice, if we wish to protest the proposed rate increases, the protest should be in written form. Please consider this letter as our protest. Our protest concerns the rules under which the protests are considered, the differences in the rate increase between the city contracted MSW Consultants Study and what was provided in the notice to the affected property owners, and the actual rate increases.*

*Stated within the rules is the requirement that if written protests are filed by a "majority" of the affected property owners, the proposed solid waste rate increase will not be imposed. There is no information provided as to the number of affected property owners. Could that be over 50,000? Who or what determined that a "majority" was the standard required to stop a proposed rate increase. If that requirement is stated in the city charter or relevant document, then that should be cited. To require a "majority" of affected property owners within a city with a population of 200,000 people is severely unreasonable. The intent of such a requirement would seem to ensure the failure of the protests to stop the proposed rate increases. Therefore we're requesting the following:*

- 1. Number of affected property owners*
- 2. Number of notices mailed*
- 3. A copy of the official city source document where the protest rules, and specifically the "majority" policy as applied to protests, were drawn from.*

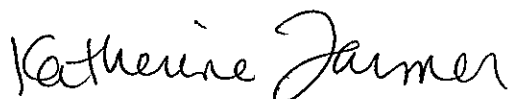

*A chart of the rate increases over a five-year period was included in the notice to the affected property owners. Although it reflects roughly the same percentage increases as*

*the chart submitted by MSW Consultants (enclosed), the actual dollar numbers are higher. Once the MSW Consultants Study was submitted, who, and based on what information the consultants apparently did not have, determined that higher rate increases from those submitted in the study were warranted? The appearance is that the city is trying to increase revenues more than what may be necessary.*

*And lastly, the rate increases themselves. Unfortunately, we no longer have our bills from 2010 to verify the city's statement that there have been no solid waste rate increase for a 12 year period. If that's true, we commend the city for policies that have not necessitated such increases. An increase in revenue for the reasons stated in the notice to the affected property owners would seem reasonable at face value. But without the benefit of local investigative journalists or other city "watchdogs," it would be difficult within the allotted time frame to challenge the reasons given or produce evidence to the contrary. In April of 2006, former Glendale mayor Dave Weaver, in response to complaints about trash fees going up, said, "...the fact is we are simply trying to recover costs..." Any rate increase for a city service would be more palatable if it was just that, simply trying to recover costs. Based on the dramatic increase in rates, again, the appearance is that there's an effort to increase revenues more than what may be necessary.*

*Glendale is our home. Over the years, we have availed ourselves of city services, and we are still impressed with the people within those services. However, based on how this opportunity to protest has been presented, we unfortunately are led to believe the outcome has already been determined beforehand. If that's the case, then an official investigation or inquiry should be promptly initiated and those responsible fired.*

*Sincerely,*

*Gary and Katherine Farmer*

# Protest against Excessive Solid Waste Rate Increase

**Re: Protest Proposition 218**

Dear City Clerk,

My name is Armen Abajian, property owner and resident of 3290 Dunsmere Rd, Glendale CA 91206, and I am writing this letter in **protest of Proposition 218**: City of Glendale Refuse Rates Proposal.

We understand that there is an increase in inflation and costs of service to haul solid waste away. We also understand that rate adjustments are necessary to continue quality service. However, according to Proposition 218, the new solid waste collection rate for a single-family customer standard 96-gallon cart will have an average increase of 29.4% per year for the next 5 years. This is absurd. This is a draconian increase in rates during unprecedented times and especially for senior citizens on fixed incomes.

The City not imposing an increase in the last 12 years is of no fault of the city's residents. Why did the City wait 12 years to propose such a harsh increase? Why didn't the City increase the rates gradually in anticipation of increased costs? Hitting residents with such a rate increase is bad policy by the City and unfortunately, I would say this proposal could be regarded as a **"lack of due diligence"** from City officials and its administration.

A moderate, annual rate increase of 3-6% for the next 5 years would be considered a reasonable and fair rate increase and would likely not monetarily impact and burden the residents and homeowners of the City of Glendale. Thus, **I protest the proposed rate increases** and suggest you reconsider a more modest, reasonable, and fair annual increase over the coming years.

Thank you.

Sincerely,

Armen Abajian  
Property Owner/Resident

To the City of Glendale,

I am writing to express my opposition to the proposed increases to the solid waste collection rates. As a 25-year homeowner of a Glendale property, I was incredibly disappointed to learn that Glendale intends to increase the cost of solid waste collection at a rate that can only be categorized as predatory. Like food and housing, solid waste collection is a necessity to basic societal needs that can't be treated as an easy revenue source by the city council.

Glendale should not raise the rates of solid waste collection.

Umesh Patel,

Umesh Patel & Trupti Patel Living Trust

To: Glendale City Council Members

I recently had the opportunity to meet and talk with Council member Paula Devine at an off-site gathering. During that meeting, she mentioned that the trash collection rates are scheduled to increase in 2023.

I have since learned that the rates of increase are very high, for example, between January and July 2023 they will increase over 225%.

For the record, I am a retired homeowner with an income based wholly on my IRA's and Social Security. As I'm sure you can understand, they did not increase the same amount.

Please let this letter record my disappointment that the Council would approve this amount of increase. I hope for and encourage your re-evaluation of the rate increase.

Regards,

Gerald B. Hawkins

Suzie Abajian  
City Clerk  
City of Glendale  
613 East Broadway, Room 110  
Glendale, CA 91206

Dear Ms. Abajian,

I write as the property owner at the above address to express my strong opposition to the proposed rate increase in Glendale city's solid waste program. The assessor's ID No for my property is 5601-034-012.

While I can appreciate costs are rising, the amount of the proposed increase is completely unreasonable given the current economic climate as well as the proposal to front end the largest increases within the first year, beginning as early as this February. Further, I did not authorize new trash cans nor other aspects that are driving up costs (such as SB 1383 which state legislators passed without figuring out how to pay for their new law).

Again, I strongly oppose the proposed rate hikes for solid waste.

Sincerely yours,

Mana Holman

Re: January 10, 2023 city council meeting  
Increase of solid waste rates

STATEMENT OF PROTEST

Honorable Members of Glendale City Council:

I am in receipt of the rate adjustment table. For residential services the proposed increase will literally result in hundreds of dollars for single-family services within 6 months from now, with further increases scheduled thereafter. There is no option for smaller bins or bi-weekly pickup.

We are a three-person household which has been composing and recycling for years. We generate one shopping-bag-size of trash per week, plus recycling, and rarely greenwaste. All three of us are disabled and on a limited budget.

Even if that were not the case, we STRONGLY PROTEST the exorbitant amounts proposed.

Very truly yours,

Re: Protest proposed rate restructuring and increase of solid waste

Dear City Council,

I am submitting this letter of protest to oppose your recent notice of "Proposed Rate Restructuring and Increase of Solid Waste". I am a single-family homeowner in Glendale and I understand the city's need to increase the cost of waste collection, but the proposal is unreasonable and inequitable. The need for the rise in cost, provided in the notice bullet points, is so vague and generalized that they do little to explain such an escalation in the cost of service. A proposal this substantial requires a more expository notice. I counter this proposal with a call for a more reasonable approach to evaluating cost increases for solid waste collection.

This is a protest against the proposed solid waste removal rate increase as applied to the parcel of address 421 Canyon Drive, Glendale, CA 91206 at parcel 5661-009-009.

Thank you

Subject: **Written Protest Regarding Proposed New Solid Waste Rate Increase**

Dear City Clerk:

I am the owner of the single family property at 1492 Melwood Drive, Glendale CA 91207. In response to Glendale City's Notice of Proposed Rate Restructuring and Increase of Solid Waste Rates, I am writing to protest and oppose the proposed rate increases. The information you require is as follows:

The Assessor's ID No. is 5649 015 024. The street address is as stated above. The property is known as Lots 16 and 17 in Tract No. 10001.

My GWP account number in which I pay for Rubbish collection every two months is 21828655-01. Currently my bimonthly rate is \$36.68.

I have read your notice with care. While I am sympathetic that the cost to GWP of collecting, processing and disposing of solid waste has increased over the 12 years we have not had an increase in our fees, the shock of a 228% fee increase in six months and a 358% increase over 4 ½ years, when our electricity and water rates have also significantly increased in the last few years, is substantial. I would propose smaller, more manageable increases over a longer period of time.

Sincerely yours,

*Dorothy J. Black, Trustee*

617 Hawthorne Street Glendale, CA 91204

Tel: 818 636 9996.

Hello,

I would like to notify you that the proposed rate increase for solid waste collection is somewhat too steep, as it drastically increases the rate over several years. While I agree that the increase might be necessary, there could be an increase so that it doesn't affect the residents so much.

I'd like to state that I am against the current rate increase proposal.

Respectfully,

A handwritten signature in dark ink, appearing to read 'Zograb Akelyan', written in a cursive style.

Re: Proposed Rate Increase of Solid Waste Rates  
Protest letter

My husband and I have lived at 601 E Stocker St for 33 years. I am a life long resident of Glendale, born at Glendale Adventist 1958. I am 64 & he is 66.

We are in opposition to the quadrupling of rates for our trash collection as we are on a fixed income & do not use much all our trash cans to the fullest. Only 2 of us live here.

We are hopeful the City of Glendale will reconsider these hefty monthly price hikes. I am so sad to see the OVER BUILDING of stacked multiple units in my birth city 64 yrs ago. It's ugly & over crowded - it's gone from a "town" to an urban city with no parking & traffic everywhere.

So our address again is 601 E. Stocker, 91207  
Assessment Legal Description is Bellhurst Park Lot 521

Thank you for your consideration,

Debra & Ernest Mauritsen

We welcome readers to contact us if they have information of great value to the community. Glendale resident Alex Khatchaturian contacted us about the proposed trash rate increases for non-commercial residents. Should you agree with Mr. Alex Khatchaturian, please sign the petition below and forward the petition to the Glendale City Clerk's Office only by mail or in person.

ALEX KHATCHATURIAN, OAKWOOD, GLORIETTA PARK

Dear Mr. Mohill,

As I am sure you know, the City of Glendale is proposing to increase solid waste rates effective February 1, 2023. A single-family residential customer in Glendale will see the monthly flat fee increased by 82% for the weekly collection of their 96-gallon refuse, recycling, and organic containers. An additional 25% increase will take effect on July 1, 2023, with more increases planned over the next five years.  
Proposition 218: City of Glendale Refuse Rate Adjustment Hearing

I prepared below a protest form against the city's proposed solid waste rate increases. If written protests are filed by a majority of the affected property owners, the proposed solid waste rate increases will not be imposed.

The address to mail or personally deliver the signed form is:

The City of Glendale City Clerk

613 E. Broadway, Room 110
